The basics

Power and charging

It takes two to four hours to charge the Surface Pro 4 battery fully from an empty state. It can take longer if you're using your Surface for power-intensive activities like gaming or video streaming while you're charging it.

You can use the USB port on your Surface Pro 4 power supply to charge other devices, like a phone, while your Surface charges. The USB port on the power supply is only for charging, not for data transfer. If you want to use a USB device, plug it into the USB port on your Surface.
