Tourism and Innovation C. Michael Hall, Allan M. Williams, 2019-11-25 This ground breaking volume on the relationships between tourism and innovation provides an overview of relevant innovation theories and related literatures on entrepreneurship productivity regional development and competitiveness and their significance to contemporary tourism practices Innovation is a key concept in business and entrepreneurial studies and the broader social sciences Yet despite its policy and academic importance historically little attention has been given to the role of innovation in tourism and the corresponding contribution of tourism related human mobility to regional firm and product innovation This book emphasises that innovation in tourism is much more than a series of technological innovations as important as they are and instead needs to be understood in an economic social and political context with particular stress being placed on the extent to which innovations are shaped by the framework of governance and regulation as well as by institutional factors and activities of individual actors and entrepreneurs It is structured so as to introduce the reader to the overall significance of innovation at

various levels and the role that innovation plays in firm and place competition Supported with case studies throughout this book is essential reading for all tourism students
