De Neui,David Lim,2006-06-01 We issue this book amidst the challenges arising from the resurgence of religions in the various nations of the post modern world As Islamic fundamentalism grabs the headlines Buddhist fundamentalism has also been on the rise particularly in Southeast Asia mainly in reaction to the conversionist incursions of Islam and Christianity among them Over the last thirty years Buddhism has also seen growth in the West as it s non dogmatic rationality offer of spiritual mentoring and opportunity for personal transformation have made it attractive to post modern society Are there both theological approaches as well as practical strategies for evangelical christians to use our evangelization efforts among Buddhists without any unnecessary problems to the increasing conflicts in the encounter of religions We believe there are This is the fourth and latest volume in the Buddhist World series which includes Sharing Jesus in the Buddhist World Sharing Jesus Holistically with the Buddhist World and Sharing Jesus Effectively in the Buddhist World Compiled from papers presented at the annual SEANET Missiological Forum in Thailand Communicating Christ in the Buddhist World delivers fresh insights from mission theologians and practitioners The first four chapters reflect on the theological framework by which Christians can fulfill the biblical mandate to evangelize and transform peoples The next five chapters consider the significant sociological issues that have arisen in the Christian encounter with Buddhist peoples The final three suggest some strategic ways forward for effective evangelism in the Buddhist world May this book challenge the international Christian community to find better ways of relating to and approaching people of other faiths Christian Women in Indonesia Frances S. Adeney,2003-01-01 This important book offers an edifying narrative of Indonesian women who find a new and powerful voice in the course of preparing to become Christian pastors and theologians in their native land By assuming roles of responsibility these women stand ready to

transform understandings of gender differences that have traditionally governed Indonesian culture like the notion that women are an inferior sex and not suited to leadership In a broader sense they join a growing global course toward gender equality and the evolution of women s spirituality Frances S Adeney clearly shows how religious inspired resistance led these women to create new practices and theologies designed to foster parity Realizing that Western ideas are inapplicable to foreign issues of gender and religion the author sheds light on the twin questions of cultural isolation and the complexities of doing research in the postmodern era Catholic Ethicists on HIV/AIDS Prevention James F. Keenan,Jon Fuller,Lisa Sowle Cahill,Kevin T. Kelly,2000-05-01 An eye opening demonstration of how Catholic moral theology works in the concrete Keenan shows that the Catholic tradition of moral theology is robust timely supple humane and most of all wise enough to make vital contributions to ongoing global discussions about the current state of the Body of Christ National Catholic Reporter **The Code for Global Ethics** Rodrigue Tremblay,2010-12 Humanists have long contended that morality is a strictly human concern and should be independent of religious creeds and dogma This principle was clearly articulated in the two Humanist Manifestos issued in the mid twentieth century and in Humanist Manifesto 2000 which appeared at the beginning of the twenty first century Now this code for global ethics further elaborates ten humanist principles designed for a world community that is growing ever closer together In the face of the obvious challenges to international stability from nuclear proliferation environmental degradation economic turmoil and reactionary and sometimes violent religious movements a code based on the natural dignity and inherent worth of all human beings is needed more than ever In separate chapters the author delves into the issues surrounding these ten humanist principles preserving individual dignity and equality respecting life and property tolerance sharing preventing domination of others eliminating superstition conserving the natural environment resolving differences cooperatively without resort to violence or war political and economic democracy and providing for universal education This forward looking optimistic and eminently reasonable discussion of humanist ideals makes an important contribution to laying the foundations for a just and peaceable global community **Catholic Moral Theology in the United States** Charles E. Curran,2008-04-11 In this magisterial volume Charles E Curran surveys the historical development of Catholic moral theology in the United States from its 19th century roots to the present day He begins by tracing the development of pre Vatican II moral theology that with the exception of social ethics had the limited purpose of training future confessors to know what actions are sinful and the degree of sinfulness Curran then explores and illuminates the post Vatican II era with chapters on the effect of the Council on the scope and substance of moral theology the impact of Humanae vitae Pope Paul VI s encyclical condemning artificial contraception fundamental moral theology sexuality and marriage bioethics and social ethics Curran s perspective is unique For nearly 50 years he has been a major influence on the development of the field and has witnessed first hand the dramatic increase in the number and diversity of moral theologians in the academy and the Church No one is more qualified to write this first and only comprehensive history

Keenan, 2010-01-17 This is an historical survey of 20th Century Roman Catholic Theological Ethics also known as moral theology The thesis is that only through historical investigation can we really understand how the most conservative and negative field in Catholic theology at the beginning of the 20th could become by the end of the 20th century the most innovative one The 20th century begins with moral manuals being translated into the vernacular After examining the manuals of Thomas Slater and Henry Davis Keenan then turns to three works and a crowning synthesis of innovation all developed before during and soon after the Second World War The first by Odon Lottin asks whether moral theology is adequately historical Fritz Tillmann asks whether it s adequately biblical and Gerard Gilleman whether it s adequately spiritual Bernard Haering integrates these contributions into his Law of Christ Of course people like Gerald Kelly and John Ford in the US are like a few moralists elsewhere classical gate keepers censoring innovation But with Humanae vitae and successive encyclicals bishops and popes reject the direction of moral theologians At the same time moral theologians like Josef Fuchs ask whether the locus of moral truth is in continuous universal teachings of the magisterium or in the moral judgment of the informed conscience In their move toward a deeper appreciation of their field as forming consciences they turn more deeply to local experience where they continue their work of innovation Each continent subsequently gives rise to their own respondents In Europe they speak of autonomy and personalism in Latin America liberation theology in North America Feminism and Black Catholic theology and in Asia and Africa a deep post colonial interculturatism At the end I assert that in its nature theological ethics is historical and innovative seeking moral truth for the conscience by looking to speak crossculturally **Indian Ethics** Purushottama Bilimoria, Joseph Prabhu, Renuka Sharma, 2017-03-02 Indian ethics is one of the great traditions of moral thought in world philosophy whose insights have influenced thinkers in early Greece Europe Asia and the New World This is the first such systematic study of the spectrum of moral reflections from India engaging a critical cross cultural perspective and attending to modern secular sensibilities The volume explores the scope and limits of Indian ethical thinking reflecting on the interpretation and application of its teachings and practices in the comparative and contemporary contexts The chapters chart orthodox and heterodox debates from early classical Hindu texts to Buddhist Jaina Yoga and Gandhian ethics The range of issues includes life values and virtues karma and dharma evil and suffering renunciation and enlightenment and extends to questions of human rights and justice ecology and animal ethics nonviolence and democracy Ramifications for rethinking ethics in a postmodern and global era are also explored Indian Ethics offers an invaluable resource for students of philosophy religion

human sciences and cultural studies and to those interested in South Asian responses to moral dilemmas in the postcolonial era

Soul, Self, and Society Michael Rynkiewicz, 2012-01-05 Globalization and urbanization are twin forces that are powerfully shaping economics politics and religion in the world today Traditional anthropological theories are inadequate to recognize and analyze trends such as global migration diasporas and transnationalism New departures in anthropology and the social sciences seeking to address these and other phenomena can help us critique and reshape the theology and practice of Christian mission Today most societies are no longer monocultural In such multicultural contexts any given individual may be competent in several cultures several languages several social networks What does it mean to be in mission with people on the move people who present themselves in one social identity language and culture within a particular setting and then in another setting even on the

very same day present themselves in another social identity language and culture In the face of widespread rapid movement of peoples and their increasingly fluid and multifaceted identities will the missionary settle down somewhere or be itinerant along with the people How are perplexing new questions in particular contexts to be addressed such as In what ways is the Nigerian who is founding an AIC congregation near Houston a missionary too How will Brazilians and Koreans be trained for cross cultural ministry The world is changing faster than missionaries can be retrained for service And yet ethnographic tools are still crucial to missionary practice This important work seeks to draw on recent developments in anthropology to bring valuable perspective and tools to bear on equipping missionaries for work amidst the rapid shifting and complex shaping of peoples by the forces of today s globalized world [Religion, Postcolonialism, and Globalization](#) Jennifer Reid, 2014-12-18
