*Faces of Latin America* Duncan Green, 1991 This work portrays Latin America's peoples in their fight for a brighter future It explores the region's economic crisis and the desecration of the environment The author shows how injustice and conflict in the countryside have unleashed an exodus to the slums that encircle the major cities He analyzes the roles of the main actors in the continent's history both those in power and the poor majority who through their social movements in the countryside and shanty towns struggle for their vision of Latin America's future

**Faces of Latin America** Duncan Green, 2006-09 Simple unpretentious narrative makes this volume an accessible and inviting source for nonspecialists Its many photographs enhance the appeal of the book and provide the faces referred to in the title Throughout the volume framed insets open up the text to provide an occasional window for a statistical table a biographical sketch or to give voice to a first person narrative that humanizes the text Multicultural Review

Galeano, Eduardo Galeano, 1997 The classic survey of Latin America's social and cultural history with a new introduction by Isabel Allende Since its U S debut a quarter century ago this brilliant text has set a new standard for historical scholarship of Latin America It is also an outstanding political economy a social and cultural narrative of the highest quality and perhaps the finest description of primitive capital accumulation since Marx Rather than chronology geography or political successions Eduardo Galeano has organized the various facets of Latin American history according to the patterns of five centuries of exploitation Thus he is concerned with gold and silver cacao and cotton rubber and coffee fruit hides and wool petroleum iron nickel manganese copper aluminum ore nitrates and tin These are the veins which he traces through the body of the entire continent up to the Rio Grande and throughout the Caribbean and all the way to their open ends where they empty into the coffers of wealth in the United States and Europe Weaving fact and imagery into a rich tapestry Galeano fuses scientific analysis with the passions of a plundered and suffering people An immense gathering of materials is framed with a vigorous style that never falters in its command of themes All readers interested in great historical economic political and social writing will find a singular analytical achievement and an overwhelming narrative that makes history speak unforgettably This classic is now further honored by Isabel Allende's inspiring introduction Universally recognized as one of the most important writers of our time Allende once again contributes her talents to literature to political principles and to enlightenment      Innovation and Inclusion in Latin America Alejandro

Foxley, Barbara Stallings, 2016-06-06 This book argues that Latin America must confront two main challenges greater innovation to increase productivity and greater inclusion to incorporate more of the population into the benefits of economic growth These two tasks are interrelated and both require greater institutional capacity to facilitate both innovation and inclusion Most countries in Latin America are struggling to escape what economists label the middle income trap While much if not all of the region has emerged from low income status neither growth nor productivity has increased sufficiently to enable Latin America to narrow the gap separating it from the world's most developed economies Although income inequality has diminished across much of the region in recent years social vulnerability remains widespread and institutional weaknesses continue to plague efforts to achieve equitable development This volume identifies lessons that can be learned and adapted from experiences within the region and in East Asia where the middle income trap has largely been avoided This book is the result of a collaborative project undertaken by American University's Center for Latin American Latino Studies CLALS and the Corporation for Latin American Studies CIEPLAN in Chile with financial support from the Inter American Development Bank's Office of Strategic Planning and Development Effectiveness *Global Norms with a Local Face* Lisbeth Zimmermann, 2017-08-03 To what extent are global rule of law norms which external actors promote in post conflict states localized Who decides whether global standards or local particularities prevail This book offers a new approach to the debate about how the dilemma between the diffusion of global norms and their localization is dealt with in global politics Studying the promotion of children's rights access to public information and an international commission against impunity in Guatemala Lisbeth Zimmermann demonstrates that rule of law promotion triggers domestic contestation and thereby changes the approach taken by external actors and ultimately the manner in which global norms are translated However the leeway in local translation is determined by the precision of global norms Based on an innovative theoretical approach and an in depth study of rule of law translation Zimmermann argues for a shift in norm promotion from context sensitivity to democratic appropriation speaking to scholars of international relations peacebuilding democratization studies international law and political theory The Changing Face of World Missions (Encountering Mission) Michael Pocock, Gailyn Van Rheenen, Douglas McConnell, 2005-10-01 The dramatic changes that have taken place both in global society and in the church have implications for how the church does missions in the twenty first century These trends include the rise of postmodernism the spiritual decline in the West and the advance of the gospel in the rest of the world and the impact of technology on society and missions The Changing Face of World Missions is for the mission minded church leader or lay person who wants to understand these trends Each chapter identifies and evaluates a trend examines it in light of Scripture and proposes a practical response Important terms are defined and sidebars help readers think through the issues on their own A History of Literature in the Caribbean A. James Arnold, Julio Rodriguez-Luis, J. Michael Dash, 1994-09-06 This history for the first time charts the literature of the entire Caribbean the islands as well as continental littoral as one cultural

region It breaks new ground in establishing a common grid for reading literatures that have been kept separate by their linguistic frontiers Readers will have access to the best current scholarship on the evolution of popular and literate cultures in the various regions since their earliest emergence The History of Literature in the Caribbean brings together the most distinguished team of literary Caribbeanists ever assembled cutting across ideological commitments and critical methods Differences in point of view between individual contributors are left intact here as the sign of the colonial inheritance of the region Introductions and conclusions to the various sections of the History written by the respective subeditors set them in proper perspective The unique synoptic aspect of the History lies in its comprehensiveness and its range which are unequaled Contributors A James Arnold Julio Rodriguez Luis H Lopez Morales Maria Elena Rodriguez Castro Silvio Torres Saillant Seymour Menton Ian I Smart Efrain Barradas Raquel Chang Rodriguez Carlos Alonso Ivan A Schulman W L Siemens William Luis Gustavo Pellon Emilio Bejel Sandra M Cypess Peter Earle Adriana Mndez Rodenas J Michael Dash Ulrich Fleischmann Maximilien Laroche Rgis Antoine Lon Franois Hoffmann Randolph Hezekiah Bridget Jones F I Case Marie Denise Shelton Beverly Ormerod J Michael Dash Jack Corzani Anthea Morrison Juris Silenieks Frantz Fanon Vere Knight
