Matters of Fact (RLE Social Theory) Stanley Raffel, 2014-08-21 Facts may seem to be independent but in this study Stanley Raffel looks at them as expressions of commitment Medical records he believes furnish a principal example of the actively oriented character of the factual commitment and he draws on his experience of research among the records of a large modern hospital to demonstrate this He describes how records are produced and reorganized as records and discusses the grounds which provide for all the features of the records He looks at the act of observation in many apparently and concretely different places and analyses the activity of noticing viewing recording a spectacle where what is observed supposedly remains untouched by the observing Dr Raffel goes on to show that observation events records and criteria of assessment such as reliability and completeness lose their status as unexplicated verities and become instead decisive and consequential courses of action He points out too that the Socratic dialogues exemplify an orientation to commitment that even medical records paradoxically require if they are to be the matters of fact that they are

Historical Truth in Fifteenth-Century Italy Giuliano Mori, 2024 While humanists agreed on identifying the main requirement of the historical genre with truthfulness they disagreed on their notions of historical truth Some authors equated historical truth with verisimilitude thus harmonizing the quest for truth with other ingredients of their histories such as their political utility and rhetorical aptness Others instead rejected the notion of verisimilitude identifying historical truth with factuality Accordingly they sought to produce bare and exhaustive accounts of all the things that pertained to their historical explorations often resorting to innovative disciplines such as archeology philology and the history of institutions The humanist historiographical debate is especially significant because the notion of verisimilitude encompassed crucial elements required for the development of methods of critical assessment By perceiving verisimilitude and factuality as irreconcilable Quattrocento humanists reached a critical impasse those who were interested in factual truth mostly lacked the means to ascertain it while those that developed embryonic notions of historical criticism were not eminently concerned with the factual account of the past This critical weakness exposed humanists to considerable risks including that of accepting non verisimilar historical forgeries passed off as factual Such forgeries eventually served as a testing ground for sixteenth and seventeenth century scholars who sought to restore factual truth by means of critical criteria grounded in verisimilitude thus overcoming the humanist impasse *Historical Truth in Fifteenth Century Italy* addresses Renaissance history philosophy rhetoric and jurisprudence to shed light on how humanists conceptualized truth and more specifically historical truth

Martin, 2000 In Western culture domination and hierarchy are evident in three principal ways the oppression of people by other people the oppression of women by men and the oppression of nature by human beings Combining perspectives from anarchist feminist and ecological movements in addressing these three tyrannies Green philosophy has the potential to constitute the basis of any post Western worldview that renounces domination and hierarchy including those that inform the writing and teaching of history Although books on historiography and historical method are legion few start from a Green or

post Western perspective In Green History Tom Martin follows up his Greening of the Past with a thought provoking examination of the basic assumptions underlying Western historical thought from a Green standpoint Martin argues that Western historiography and historical method are fundamentally flawed and that our entire view of the past needs rethinking He offers a cogent critique of Western historiography and suggestions on possible directions for Green methodology narrative and focus Provocative and insightful Green History is a timely work that will engage historians interested in the future of their discipline
