Cowper,2012-05 What is the impact of physical exercise on the spiritual life of clergy as they try to be good stewards of their body while being faithful to fulfill their pastoral call The problem is that clergy in a sedentary occupation can become physically unhealthy by engaging in meaningful ministry but neglecting to take care of themselves as they care for others This work is a beacon to the church community that the Apostle Paul modern day writers twenty six clergy and the researcher declare a correlation between physical fitness and the spiritual life of clergy Physical health can positively affect a person s spiritual health There is not only a link between physical and spiritual disciplines but there is a benefit to clergy their families and their church community when clergy are physically active It is important for clergy to be good stewards of their bodies while developing a regular rhythm of physical activity In so doing they will be equipped in a greater way to faithfully fulfill their call *Harvest of research outcomes to confirm achievement of the millennium development goals* Simeon O. Jekayinfa,2017-09-15 In 2000

the leaders of member states of the United Nations adopted the Millennium Declaration which set out a series of clear commitments goals and targets to achieve Human Development These ambitious goals were subsequently refined into eight Millennium Development Goals MDGs designed to provide a framework for accountability donor coordination and resource mobilization The MDGs are Eradicate extreme poverty and hunger achieve universal primary education promote gender equality and empower women reduce child mortality improve maternal health combat HIV AIDS malaria and other diseases ensure environmental sustainability and develop a global partnership for development The first seven of these Goals are concerned with outcomes identifying the progress towards certain standards of human well being and decent living which should be achieved globally and nationally by 2015 The eighth Goal is concerned with relationships identifying various aspects of a global partnership for development which must be forged to support the realization of these poverty reduction human development and environmental sustainability standards The MDGs provide opportunities to start working from real life development problems Addressing these problems requires multidisciplinary approaches that combine the natural sciences the life sciences and technical approaches with social science approaches The challenge is to integrate social economic political and institutional concerns into research strategy To be able to achieve this there is a need to establish a linking pin between research policy and practice in Nigeria The aim of such a linking pin would be to synthesize research outcomes on specific MDGrelated topics and to translate these into implications for policy and decision making through easily accessible gathering where individual stakeholders can air their views The articles contained in this book address research outcomes from stakeholders Sociologists Economists Agronomists Agricultural Engineers Civil Engineers Environmental Scientists and Engineers Geographers Geologists Microbiologists Medical Practitioners Policy Makers Educationists etc to confirm achievement of Millennium Development Goals in Nigeria and other neighboring countries
