Stepanek, Melinda Leong, Linda Griffin, 2010-11-19 This professional learning programme for Key Stage 2 mathematics teaching is grounded in the latest research on the characteristics of effective professional development. The materials help teachers deepen their content knowledge for important mathematical concepts in their grade, increase their understanding of how students learn these mathematical ideas, use their knowledge to develop effective lessons and improve instruction, enhance their collaboration skills. The mathematical content of *Teaching by Design in Mathematics* matches content topics in number and operations identified for each grade by the NCTM Curriculum Focal Points. The culminating activity of the programme is the co-creation of a prototype lesson which is taught to students by team members; the team then investigates the impact of the lesson on student learning. The cycle of investigating, planning, teaching, observing, debriefing and revising a lesson together contributes to a climate of continuous professional learning. *Teaching by Design in Elementary Mathematics, Grades 4-5*

Jennifer Stepanek, Melinda Leong, Linda Griffin, 2010-11-16 Strengthen your mathematics lessons through collaborative planning. *Teaching by Design in Elementary Mathematics* is a series of comprehensive professional development guides that help teachers investigate how students learn. Grounded in the latest research, this book is one of three volumes focused on grade-appropriate number and operations topics aligned with the Common Core State Standards. The capstone activity of each book guides the group through the co-creation and implementation of a prototype lesson. The teacher teams then evaluate the impact of the lesson on student learning and work together to revise it for maximum effectiveness. Through the process, teachers develop deeper content knowledge of important mathematical concepts, improved understanding of how students learn these mathematical ideas, a stronger foundation for developing effective lessons and improving instruction, enhanced collaboration skills. Each volume includes a large assortment of reproducible handouts as well as built-in facilitation notes. Teachers will also find helpful resources that address the issue of finding time for school-based professional development and teacher collaboration.
