ground transportation throughout the world Now that is changing and 2023 is the year when most people will recognize that change is happening This book is a comprehensive easy to understand overview of the passenger EV universe including guides for buying and owning an electric car The authors discuss choosing owning and driving an electric car then explain the features advantages benefits and limitations of over 45 EV models including pickup trucks SUVs and sedans If you have to have a car make it an electric car As this book makes clear they are better than old fashion vehicles in every way Bill McKibben American environmentalist and climate change authority co founded 350 org and spearheaded the fossil fuel divestment campaign resulting in endowments worth more than 15 trillion stepping back from oil gas and coal Thankfully now that the electric vehicle R D dark ages are coming to an end and automakers around the world are charging up their EV programs there s no doubt that we re about to see massive valuable change in our transportation landscape Sebastian Blanco one of America s leading electric car journalists who has been writing about EVs since 2006 *Medical Ethics and Medical Law* José Miola, 2007-07-12 Medical law and ethics are frequently referred to in conjunction and appear together in many textbooks But do they combine to form a cohesive unit and do they benefit each other It may be argued that they do not but rather suffer a symbiotic relationship clashing rather than cooperating This book examines this relationship and how the law sees medical ethics It then considers whether medical ethics functions in the way that the law thinks that it does After providing a historical perspective that identifies medical ethics discourse as disjointed and fragmented the book continues by examining key medico legal case law and reports that have an inherent ethical content for clues as to how they define medical ethics and its role It also considers how medical ethics sees the law concluding that a misapprehension by each party as to what the other does creates a mutually harmful relationship between them
