It traces their experiences within the criminal justice system from initial contacts with the police to juvenile court and juvenile corrections. Besides extensive interviews with the youths and official records collected from local criminal justice agencies, data from more than 300 surveys of community members accompanied by extensive field research in local communities provides groundbreaking insights into a wide spectrum of issues related to gangs in rural settings. While the Central Valley of California serves as the research site for this extensive work, its findings are equally relevant to other rural areas in the United States and in the larger global context. This volume will be of pivotal interest to students, scholars and academics in the fields of criminology, criminal justice, sociology, law, social sciences and political sciences as well as policymakers, criminal justice practitioners, community leaders and advocates for gang prevention and intervention programs.
