The Moral Philosophy of Maria Montessori Patrick Frierson, 2022-11-17 In the first scholarly exposition of Maria Montessori s moral philosophy Patrick R Frierson presents an empirically grounded ethics that takes its start from our tendency to strive for excellence and emphasizes mutual respect social solidarity and love Laying out a compelling Montessorian approach to ethical life Frierson constructs an account of human agency based on children who when attentively at work on self chosen tasks have agency worthy of respect Through this interpretation of children s agency he introduces the core concept of Montessorian character in Montessori s ethics character provides the ultimate value worthy of direct respect and those with character have a natural tendency to respect others Character is enhanced through corporate forms of agency that Montessori calls social solidarity Weaving this educationalist s ethics with theory from Nietzsche Aristotle Kant Hegel and Marx Frierson places Montessori in the context of the history of philosophy His study effectively unites philosophy and education showing how human ethical life can be enhanced through a moral theory based on the respectful attention to the lived agency of young children The New Music Therapist's Handbook Suzanne B. Hanser, 2000-03-01 Berklee Guide This completely updated and revised edition reflects the latest developments in the field of music therapy Includes an introduction to the profession guidelines for setting up a practice new clinical applications and helpful case studies a must for students and professionals alike *Early Science Education – Goals and Process-Related*

Quality Criteria for Science Teaching Yvonne Anders, Ilonca Hardy, Sabina Pauen, Jörg Ramseger, Beate Sodian, Mirjam Steffensky, 2017-11-13 Scientific contributions authored by distinguished experts from the field of early education are published periodically within the framework of the series Scientific Studies on the Work of the Haus der kleinen Forscher Foundation. This publication series serves to foster informed dialogue between the Foundation scientists and practitioners with the aim of giving all early childhood education and care centres, after school centres and primary schools in Germany scientifically sound support in fulfilling their early education mandate. This fifth volume in the series focuses on goals of science education at the level of the children, the early childhood professionals and the pedagogical staff at after school centres and primary schools and on process related quality criteria for science teaching at pre primary and primary level. In their expert reports Yvonne Anders, Ilonca Hardy, Sabina Pauen, Beate Sodian and Mirjam Steffensky specify pedagogical content dimensions of the goals of early science education at pre primary and primary school age. In addition to theoretically underpinning these goals, the authors present instruments for their assessment. In his expert report Jörg Ramseger formulates ten quality criteria for science teaching. Early childhood professionals and pedagogical staff at after school centres and primary schools can draw on these process related criteria when planning lessons and conducting self evaluations of science learning opportunities at pre primary and primary level. The concluding chapter of the volume describes the implementation of these expert recommendations in the substantive offerings of and the accompanying research on the Haus der kleinen Forscher Foundation.

Fascia: The Tensional Network of the Human Body - E-Book Robert Schleip, Carla Stecco, Mark Driscoll, Peter Huijing, 2021-12-08 The role of the fascia in musculoskeletal conditions and as a body wide communication system is now well established. Fascia: The Tensional Network of the Human Body constitutes the most comprehensive foundational textbook available that also provides the latest research theory and science around fascia and their function.
