Manual of Deixis in Romance Languages Konstanze Jungbluth, Federica Da Milano, 2015-10-16 Deixis as a field of research has generated increased interest in recent years It is crucial for a number of different subdisciplines pragmatics semantics cognitive and contrastive linguistics to name just a few The subject is of particular interest to experts and students philosophers teachers philologists and psychologists interested in the study of their language or in comparing linguistic

structures The different deictic structures not only the items themselves but also the oppositions between them reflect the fact that neither the notions of space time person nor our use of them are identical cross culturally This diversity is not restricted to the difference between languages but also appears among related dialects and language varieties This volume will provide an overview of the field focusing on Romance languages but also reaching beyond this perspective Chapters on diachronic developments language change comparisons with other non European languages and on interfaces with neighboring fields of interest are also included The editors and authors hope that readers regardless of their familiarity with Romance languages will gain new insights into deixis in general and into the similarities and differences among deictic structures used in the languages of the world

The Open Handbook of Linguistic Data Management Andrea L. Berez-Kroeker,Bradley McDonnell,Eve Koller,Lauren B. Collister,2022-01-18 A guide to principles and methods for the management archiving sharing and citing of linguistic research data especially digital data Doing language science depends on collecting transcribing annotating analyzing storing and sharing linguistic research data This volume offers a guide to linguistic data management engaging with current trends toward the transformation of linguistics into a more data driven and reproducible scientific endeavor It offers both principles and methods presenting the conceptual foundations of linguistic data management and a series of case studies each of which demonstrates a concrete application of abstract principles in a current practice In part 1 contributors bring together knowledge from information science archiving and data stewardship relevant to linguistic data management Topics covered include implementation principles archiving data finding and using datasets and the valuation of time and effort involved in data management Part 2 presents snapshots of practices across various subfields with each chapter presenting a unique data management project with generalizable guidance for researchers The Open Handbook of Linguistic Data Management is an essential addition to the toolkit of every linguist guiding researchers toward making their data FAIR Findable Accessible Interoperable and Reusable

Remote Sensing of Tropical Dry Forests in the Americas Arturo Sanchez-Azofeifa,2025-07-28 This second edition focuses on Tropical Dry Forests TDF in the Americas and provides a comprehensive overview of new studies conducted in the last decade giving new insights into the most endangered ecosystem in the tropics Written by experts in remote sensing ecosystem services and ecology the book concentrates on four thematic areas such as LiDAR remote sensing remote sensing and ecology quantification of ecosystem services and TDF ecology The case studies presented in this edition provide information on how emerging technologies can be applied to analyze biophysical properties and the status of TDFs across different regions in Mexico Costa Rica Brazil and Bolivia Features Includes all new content and does not replace the previous edition Offers insight into the application of airborne and terrestrial laser scanning in tropical dry forests Discusses ecology remote sensing hydrological modelling and ecosystem services Includes novel information to build additional comparisons with peer reviewed datasets Highlights scientific achievements from different countries with tropical dry forests Enables readers to

comprehend and apply further comparative studies within the same ecosystem This is an excellent book for professionals academics and students in the fields of Remote Sensing Hydrology and Environmental Science as well as for Geographers Ecologists and individuals involved in the management of tropical dry forests
