Competing for the Internet Flip Petillion, Jan Janssen, 2017-03-15 The Internet Corporation for Assigned Names and Numbers ICANN founded in 1998 is a not for profit public benefit corporation established to ensure a stable and secure global Internet As the custodian of the Domain Name System DNS one of its key responsibilities is the introduction and promotion of competition in Internet related markets an aim which ICANN has tried to achieve through the delegation of generic top level domains gTLDs This book investigates how successful ICANN has been in achieving this goal Over the years ICANN has been required to decide on a substantial number of complaints from applicants for gTLDs related to capture arbitrariness discrimination and unwarranted restriction of competition This book is the first detailed study of complaints related to ICANN decisions that have been brought using ICANN s Independent Review Process IRP The authors preeminent expert practitioners in international litigation and arbitration related to Internet governance take a close look at how ICANN has handled the major issues raised and how ICANN has shaped its own accountability mechanisms The book also weighs the influence of external accountability on ICANN s decision making process and considers the implications of third party decisions such as IRP decisions for the ongoing development of the Internet This authoritative analysis covers the regulatory framework governing ICANN and the introduction of new gTLDs in a historic perspective ICANN s accountability framework all the IRP cases that have been decided to date with an in depth analysis of those cases that have become reference

decisions in the latest application round and the 2016 amendments to ICANN's articles of incorporation and bylaws concentrating on the problems that remain unresolved. This work is a welcome addition to the debate on how to address the shortcomings in ICANN's accountability in the interests of the global Internet community. The authors make concrete proposals and recommendations suggesting changes to ICANN's regulatory framework in the light of the lessons learned and with a view to preventing similar problems arising in a next round of gTLD applications. This book has the potential to become the Green Book for fundamental changes to ICANN's accountability framework.

Handbook on Hybrid Organisations David Billis, Colin Rochester, 2020-02-28 Hybrid Organisations that integrate competing organisational principles have become a preferred means of tackling the complexity of today's societal problems. One familiar set of examples are organisations that combine significant features from market public and third sector organisations. Many different groundbreaking approaches to hybridity are contained in this Handbook which brings together a collection of empirical studies from an international body of scholars. The chapters analyse and theorise the position of hybrid organisations and have important implications for theory practice and policy in a context of proliferating hybrid forms of organisation.
