government officials to discuss research and policy questions raised by training activities at the workplace As one might expect the discussion ranged widely and reflected many viewpoints on the relationship between education and work Among the participants there was consensus neither as to what should be done nor 2 PETER B DOER INGER even as to what were the most important gaps in our knowledge about the workings of the education and training system The discussion was helpful however in drawing attention to the workplace as a significant and too often neglected component of this system
