develop the confidence to move outside the cocoon of their own language group They can then interact successfully in English in the daily routines of life because they understand English and can be understood by English speaking people The content is developed from real life stores written by a team including ESL learners about issues they have experienced in learning how to live successfully in the United States Since the curriculum is discussion based it gives the learners the opportunity to discuss their feelings and to support one another in their cultural adjustment School Education ,1902
