GCE Advanced Subsidiary Level and GCE Advanced Level

MARK SCHEME for the May/June 2013 series

9708 ECONOMICS

9708/21

Paper 2 (Data Response and Essay – Core).
maximum raw mark 40

This mark scheme is published as an aid to teachers and candidates, to indicate the requirements of the examination. It shows the basis on which Examiners were instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began, which would have considered the acceptability of alternative answers.

Mark schemes should be read in conjunction with the question paper and the Principal Examiner Report for Teachers.

Cambridge will not enter into discussions about these mark schemes.

Cambridge is publishing the mark schemes for the May/June 2013 series for most IGCSE, GCE Advanced Level and Advanced Subsidiary Level components and some Ordinary Level components.

On Unemployment Mark R. Reiff,2015-10-07 With unemployment at historically high rates that show signs of becoming structural there is a pressing need for an in depth exploration of this economic injustice Unemployment is one of the problems most likely to put critical pressure on our political institutions disrupt the social fabric of our way of life and even threaten the continuation of liberalism itself Despite the obvious importance of the problem of unemployment however there has been a curious lack of attention paid to this issue by contemporary non Marxist political philosophers *On Unemployment* explores the moral implications of the problem of unemployment despite the continuing

uncertainty involving both its causes and its cures Reiff takes up a series of questions about the nature of unemployment and what justice has to tell us about what we should do if anything to alleviate it The book comprehensively discusses the related theory and suggests how we might implement these more general observations in the real world It addresses the politics of unemployment and the extent to which opposition to some or all of the book s various proposals stem not from empirical disagreements about the best solutions but from more basic moral disagreements about whether the reduction of unemployment is indeed an appropriate moral goal This exciting new text will be essential for scholars and readers across business economics and finance as well as politics philosophy and sociology

About Britain Tim Cole,2021-06-10 A captivating glimpse of Britain then and now seen from behind the steering wheel In 1951 the Festival of Britain commissioned a series of short guides they dubbed handbooks for the explorer Their aim was to encourage readers to venture out beyond the capital and on to the roads and the by roads to see Britain as a living country Yet these thirteen guides did more than celebrate the rural splendour of this island nation they

also made much of Britain's industrial power and mid-century ambition, her thirst for new technologies, pride in manufacturing and passion for exciting new ways to travel by road, air and sea. Armed with these *About Britain* guides, historian Tim Cole takes to the roads to find out what has changed and what has remained the same over the 70 years since they were first published. From Oban to Torquay, Caernarvon to Cambridge, he explores the visible changes to our landscape and the more subtle social and cultural shifts that lie beneath. In a starkly different era where travel has been transformed by the pandemic and many are journeying closer to home, *About Britain* is a warm and timely meditation on our changing relationship with the landscape, industry and transport. As he looks out on vineyards and apple orchards, power stations and slate mines, vast greenhouses and fulfilment centres for online goods, Cole provides an enchanting look at twentieth and early twenty-first century Britain.
