Freedom from Stammering Anshuman Sharma, 2022-07-04. Can stammering be defeated to become a good speaker? The answer is yes. Stammering will be defeated, and you will reach the pinnacle of success if you believe in yourself and are ready to put in the required efforts. How will this happen? Stammering is due to anxiety triggered by the psychological fear of letters and words. It means that your subconscious mind has accepted the fact that you will not be able to speak a specific letter or word. It becomes a belief, making it real. You stammer. If you get rid of this faulty thinking from your subconscious mind, then your anxiety would diminish automatically, making you a better speaker without speech impediments. Note the following points: Stammering is a habit. It is triggered automatically. The problem of stammering can be solved by getting freedom from faulty habits. We will share the ideas, exercises, and techniques of the people who have successfully defeated their stammering in the past and become good speakers with professional success and satisfaction. It is said that stammering is a rigid habit that does not easily leave a person. Stories abound about the years of struggle with stammering without results. Even if the intensity of stammering is reduced slightly, it tends to bounce back even harder. After several failed efforts, people accept their fate of living a life with a speech handicap. We do not guarantee that everyone

following this book will be able to cure their stammering completely The main objective is to present a large number of exercises techniques and ideas which have worked for other people and were responsible for developing their communication skills and personality and helping them to defeat their stammering to a certain extent In some cases stammering was cured to 99% while in other cases it was 70% 75% 85% 92% and so on This journey is going to be long and hard The stammering is not going to be cured immediately or show any signs of abating for several months But if the efforts are consistent and hard the stammering would slowly weaken and start to loosen its grip on the person This is the fundamental objective of this book We hope that many people around the world would benefit from this collection of ideas and techniques If you want to fight your stammering with full force this book will stand with you in your struggle If you have high expectations from yourself and believe that you will be able to defeat your psychological fear of stammering then let us start the journey to better speaking without speech handicap
