Resources in Education ,1982 **Resources in Women's Educational Equity** ,1979 *Case Studies in Management* Akhilesh Chandra Pandey,2015-04-15 This book presents practical understanding of the management problems. Broadly it is meant for the students who have basic training in management or commerce and also for those with little or no formal management background like MCA and Engineering. For management professionals essential principles and concepts of management that are particularly relevant for understanding the problems of management are highlighted through issues for discussion. Thus the book is of special value for undergraduate and postgraduate courses like BBA MBA MHRD MIB as well as for B Tech and MCA. The case material is sufficiently broad in scope and rigorous in coverage to satisfy any undergraduate and postgraduate courses in the field of management. Each case study provides a descriptive analysis of the critical problems faced by leading organisations. Further more each case study is chosen to reflect and illustrate a specific problem. Each case study contains one relatively successful and the other less so in dealing with one or more of the critical issues or problems. All the case studies have been updated to reflect the latest available information of the corporate world. Issues for discussion in each case are an attempt to explore the various facets of management principles involved for solving the problem.

Cases in Strategic Management Alonzo J. Strickland, Arthur A. Thompson, John E. Gamble, 2001. Strickland and Thompson. *Cases in Strategic Management* is the softcover collection of cases component of this market leading strategic management package. Over the years this author team has developed a network of case authors and is able to select from the cream of the crop. And having taught the course themselves for many years they are very experienced in selecting the types of cases that will spark student interest and generate lively classroom discussions. Many of the cases reflect high profile companies, products and people that students will have heard of, know about from personal experience or can easily identify with. The case line up features a collection of dot com New Economy companies such as America Online, Wingspan Bank, com drkoop, com Intel, EBay, CDNow, Dell and Competition in the Electronic Brokerage industry. Cases are further selected to highlight other critical types of business and trends such as non US companies, globalization, cross cultural situations, relatively small entrepreneurial firms, non profit organizations and more.
