

Chapter 6

Measuring and Managing Customer Relationships

QUESTIONS

- 6-1** Nonfinancial measures such as customer satisfaction and customer loyalty are important in managing relationships with customers, but an excessive focus on improving customer performance with only these metrics can lead to deteriorating financial performance. To balance the pressure to meet and exceed customer expectations, companies should also be measuring the cost to serve each customer and the profits earned, customer by customer.
- 6-2** Examples of differences between customers who have high and low costs-to-serve may be drawn from the chapter's Exhibit 6-1, part of which appears below.

<i>High Cost-to-Serve Customers</i>	<i>Low Cost-to-Serve Customers</i>
<ul style="list-style-type: none"> • Order custom products • Small order quantities • Customized delivery • Manual processing; high order error rates • Large amounts of pre-sales support (marketing, technical, and sales resources) • Large amounts of post-sales support (installation, training, warranty, field service) • Pay slowly (have high accounts receivable from customer) 	<ul style="list-style-type: none"> • Order standard products • Large order quantities • Standard delivery • Electronic processing (EDI) with zero defects • Little to no pre-sales support (standard pricing and ordering) • No post-sales support • Pay on time (low accounts receivable)

Management Accounting Atkinson Solutions Ch 6:

Financial Management for Hospitality Decision Makers Chris Guilding, 2007-08-22 Financial Management for Hospitality Decision Makers is written specifically for those decision makers in the industry who need to be able to decipher accountant speak and reports in order to use this information to its best advantage and achieve maximum profits. The area of accounting and finance is a vital but often inaccessible part of the hospitality business. However, having the knowledge and the ability to use it properly makes all the difference to the turnover and success of a business. Financial Management for Hospitality Decision Makers is written specifically for those industry executives who need to be able to decipher, appreciate and utilise valuable financial management tools and techniques in order to realise maximum profits. Highly practical in its scope and approach, this book outlines the procedure and purpose behind various financial activities including budgeting, year-end financial statement analysis, double entry accounting, managing and analysing costs, working capital management and investment decision making. Demonstrates how an appropriate analysis of financial reports can drive your business strategy forward from a well-informed base. Clearly highlights the key financial issues you need to consider in a host of decision-making situations. Includes a range of problems to help readers appraise their understanding of concepts with solutions provided for lecturers at <http://textbooks.elsevier.com>. At all times, the book rigorously applies itself to the specific needs of the hospitality decision maker, contextualising and explaining financial decision making and control in this light. Combining a user-friendly structure with frequent international cases, worked examples and sample reports to illuminate the theory. Financial Management for Hospitality Decision Makers is ideal for all students of hospitality as well as being a vital source of information for practitioners already in the industry. **Managerial Accounting** Irvin N. Gleim, Terry L.

Campbell, 1992 Management Accounting and Control Michel Charifzadeh, Andreas Taschner, 2017-10-30 Management accounting has been the basic toolbox in business administration for decades. Today it is an integral part of all curricula in business education and no student can afford not to be familiar with its basic concepts and instruments. At the same time, business in general and management accounting in particular is becoming more and more international. English clearly has evolved as the lingua franca of international business. Academics, students as well as practitioners exchange their views and ideas, discuss concepts and communicate with each other in English. This is certainly also true for management accounting and control. Management Accounting is becoming more and more international. Management Accounting and Control is a new textbook in English covering concepts and instruments of management accounting at an introductory level, primarily at the Bachelor level but also suited for general management and MBA courses due to a strong focus on practical relevance. This textbook covers all topics that are relevant in management accounting in business organizations that are typically covered in German and Central European Bachelor courses on management accounting and control. After a general introduction to the field of management accounting and control, the book discusses cost management as an extension of cost accounting. Typical

cost management instruments such as target costing life cycle costing and process based costing approaches are explained in detail Differences between Anglo American activity based costing ABC and German process based costing are highlighted The book then turns to an extensive discussion of planning and budgeting tasks in management accounting with a strong focus on the practical application of the topic such as developing a budget in practice Another chapter is dedicated to a comparison of traditional budgeting with modern alternative budgeting approaches A major part of the book is dedicated to the broad area of performance management The relevance of financial statement information for performance management purposes is discussed in detail In addition the most widely spread financial performance indicators are illustrated using real world examples The book also includes detailed content on value based management control concepts In a consecutive chapter performance measurement is linked with strategy while extensively discussing the Balanced Scorecard as a key tool in strategic performance management The remaining parts of the book deal with management reporting as one of the main operative tasks in management accounting practice The book closes with insight into new fields and developments that currently influence management accounting practices and research and promise to play an increasingly important role in the future

An Innovative Performance Measurement System & Sustainability Habib Zaman Khan,2024-09-17 This book assesses the architecture of performance measurement systems PMS in emerging countries utilizing a mix of theoretical frameworks and empirical evidence with Bangladesh as a case context It examines the evolution and improvement of performance measurement over time with the introduction of new tools such as multiple dimensional measures and the balanced scorecard BSC The book explores the historical and cultural roots of PMS within the context of developing countries and its latest developments in the context of sustainability practices and sustainable development Additionally this book provides empirical evidence from the banking sector in Bangladesh highlighting the factors driving firms to adopt new PMS This book is an invaluable resource for researchers and policymakers interested in performance measurement systems in developing countries offering a foundation for future research and policy initiatives
