Resources in Education, 1982 **Cold War, Hot Science** Robert Bud, Philip Gummett, Science Museum (Great Britain), 1999 Cold War Hot Science presents an authoritative history of post war British defence research as related to the establishments that now form part of the Defence Evaluation and Research Agency DERA The agency includes such well known centres as the Royal Aircraft Establishment at Farnborough the Royal Signals and Radar Establishment at Malvern and the Chemical and Biological Defence Establishment at Porton Down Collectively these have carried out a very high proportion of all the scientific research conducted in Britain since the war Study of these vast but traditionally secretive institutions is vital to understanding science in post war Britain BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved *The Politics of Professionalism* Gary McCulloch, Gill Helsby, Peter Knight, 2000-05-01 Many commentators feared that the Education Reform Act of 1988 sounded the death knell for teacher professionalism in Britain More than a decade later however professionalism appears to have staged a miraculous recovery David Blunkett says that it is back at the very heart of teaching But what kind of professionalism is this In whose interest is its recovery and what effects will it have And how does this development relate to changes in edict countries and other professions The Politics of Professionalism provides authoritative answers to these questions It does so by setting the debates in their historical context and by drawing on detailed research findings on teachers experience of work and education especially the curriculum in the current era In the process this book makes a major contribution to our understanding of the politics history and sociology of teaching and the other professions *Computer Graphics and Geometric Modeling Using Beta-splines* Brian A. Barsky, 2013-12-20 *Subject Index of Modern Books Acquired* British Library, 1971 Scientific and Technical Aerospace Reports, 1993 Improving Schools and Educational Systems Alma Harris, Janet Hageman Chrispeels, 2006-04-18 School improvement has become a dominant feature of educational reform in many countries The pressure upon schools to improve performance has resulted in a wide range of improvement programmes and initiatives which can provide both inspiration and advice to everyone involved in school improvement This book draws together the most effective school improvement projects from around the world in one comprehensive text including detailed comparative analysis of a wide variety of initiatives Drawing on examples from the UK the USA Canada South Africa and Australia this book gives both an international snapshot and a coherent synthesis of initiatives that have given achievable results **The Conservative Party** Tim Bale, 2017-01-19 The Conservatives are back and back with a bang two election wins in a row and providing they can hold things together in a pretty good position to win another But many questions about their recent past present and future still remain Just why did the worlds oldest and most successful political party dump Margaret Thatcher only to commit electoral suicide under John Major And what stopped the Tories getting their act together until David Cameron came along Did Cameron change his party as much as he sometimes liked to claim or did his leadership both in

opposition and in government involve more compromise and more Conservatism than we realize Finally what does the result of the EU referendum mean for the Party in years to come The answers as this accessible and gripping book shows are as intriguing and provocative as the questions Based on in depth research and interviews with the key players Tim Bale explains how and why the Tories lost power in 1997 and how and why they have eventually been able to rediscover their winning ways even if internal tensions and external challenges mean they still cant take anything for granted Crucial he suggests are the people the power structures the ideas and the very different interests of those involved This second edition of The Conservative Party From Thatcher to Camerons is a must read for anyone wanting to understand what makes the Tories tick
