Case Studies Donna J. Bowles, 2011-02-24 Designated a Doody's Core Title This is an excellent teaching guide and resource manual for instructors gerontological nursing students and practicing nurses and social workers who wish to learn more about geriatric concerns and care It will be kept by nursing students long after they graduate as a guide to resources that will be valuable throughout their nursing careers As a home care nurse working mainly with the geriatric community I found the resources helpful in my practice As an instructor I found the book to be a very useful guide for teaching geriatrics Score 90 4 Stars Doody's Medical Reviews Donna Bowles's Gerontology Nursing Case Studies is a unique volume that effectively addresses the lack of gerontology case studies for use with undergraduate nursing students Case studies are a pedagogically powerful approach to active learning that offer opportunities to apply content to clinical practice The Gerontologist The case narrative approach of this book promotes active learning that is more meaningful to students and practicing nurses and more likely to increase the transfer of evidence into practice An excellent resource for faculty staff educators to facilitate critical learning skills Liz Capezuti PhD RN FAAN Dr John W Rowe Professor in Successful Aging Co Director Hartford Institute for Geriatric Nursing New York University College of Nursing This is a terrific text that provides nurses and other health care providers with good basic information about clinical problems and challenges we face in providing care to older adults It should be considered required reading in all undergraduate programs From the foreword by Barbara Resnick PhD CRNP FAAN FAANP Professor University of Maryland School of Nursing Sonya Ziporkin Gershowitz Chair in Gerontology At the heart of this unique volume are 100 case studies of older adults that address nearly every issue physical mental and psychosocial that may confront health care providers who work with the aging population These case studies culled from contributors with several centuries worth of combined nursing expertise are designed to guide nursing students in the development of interventions that encompass both complementary and alternative health strategies Exercises interspersed throughout each case study are designed to foster critical thinking and decision making skills These case narratives provide a holistic approach to problem solving in regard to political ethical and legal issues loss and end of life issues elder abuse depression addiction and suicide self esteem and family relationships sexuality age related health issues cognitive impairment cultural diversity as it relates to aging pain management and sleep disturbances The volume also addresses such contemporary psychosocial issues as gambling addiction hoarding behavior emergency preparedness the aging driver and long distance caregiving Key Features Provides 100 evidence based case studies Cultivates development of critical thinking and decision making skills Features realistic contemporary scenarios Designed for use across the gerontology nursing curriculum Geared for AACN and NLN Accreditation Organized according to the needs of actual clinical settings

**Physical Change and Aging, Sixth Edition** Sue V. Saxon, Mary Jean Etten, Elizabeth A. Perkins, 2014-08-27 This book has been honed into an elegant compendium This outstanding work should be widely read it is perhaps the best example of an integrative approach to gerontology Score 94 4 stars Doody's Physical Change Aging has been a well respected resource

for caregivers ever since it was published in 1978 This updated version carries on the tradition of providing valuable information on the aging process and age related health issues Former First Lady Mrs Rosalynn Carter This sixth edition of a classic multidisciplinary text for students of gerontology continues to offer practical reader friendly information about the physical changes and common pathologies associated with the aging process It places special emphasis on the psychological and social implications of these changes in the lives of older adults The book is distinguished by its thorough focus on anatomy and physiology and common health problems pertaining to each body system It emphasizes the positive aspects of aging and demonstrates how the elderly population can gain greater personal control through lifestyle changes and preventive health strategies toward the goal of optimal aging This sixth edition has been thoroughly updated to present new research findings that differentiate normal aging from actual pathology and includes substantially updated information on diagnosis and treatment It incorporates new data from healthy older adults demonstrating that the aging process is not necessarily as devastating as earlier research had indicated The book provides new data and guidelines on risk factors nutrition preventive measures interventions and commonly prescribed medications and includes expanded treatment of complementary and alternative therapies Also included is an updated discussion of grief ethical issues and funeral options The book reinforces information with practical applications of aging data Written for students of gerontology social work human services nursing medicine occupational and physical therapy counseling and elder law it presents information that is clearly understandable for those without an extensive background in biology or medicine Additionally the book is a useful practitioner s guide and an easily understandable book for family caregivers THIS SIXTH EDITION INCLUDES NEW INFORMATION ON Diagnosis and treatment Behaviors and interventions that promote more control over an individual s aging process Genetic DNA theories Dementia and Parkinson s disease Immunotherapy Lifelong health disparities Animal assisted therapy Prayer and meditation Pharmacogenetics Geragogy self directed learning Caregiver health as a public health issue Natural funerals biodegradable caskets burial urns dying at home      *Lubkin's Chronic Illness*

Larsen,2017-12-01 Lubkin s Chronic Illness Tenth Edition is an essential text for nursing students who seek to understand the various aspects of chronic Illness affecting both patients and families Important Notice The digital edition of this book is missing some of the images or content found in the physical edition      *Palliative Care Nursing* Marianne LaPorte

Matzo,Deborah Witt Sherman,2010 Print CourseSmart      **Shaping Health Policy Through Nursing Research** Ada Sue Hinshaw,Patricia A. Grady,2010-08-26 Named a 2013 Doody s Core Title 2011 AJN Book of the Year Winner in Nursing Research This is a much needed addition to nursing s arsenal of policy books It is the first to really examine the need for scientific evidence to underpin policy The two editors are pioneers in research and have led nursing research to new levels It is fitting they do the same in underscoring the important role nurses have in using their programs of research to develop policy agendas Score 94 4 stars Doody s A must read for health care policy makers as well as nursing students faculty and

professionals this groundbreaking text provides actual strategies for translating nursing research to health policy at all levels of policy making The editors both leaders in nursing research provide key findings from research programs that have positively influenced health policy decisions and programs at community state national and international levels The first compilation of information linking health policy and nursing research this text presents perspectives and frameworks for understanding the processes bridging research and health policy multiple factors influencing the processes and actual examples of National Institute of Nursing Research NINR funded research that has influenced health policy programs Key Features Examples of NINR funded research that has been used at all levels to influence health policy including settings populations and age spectrums Models and strategies for linking research and health policy Lessons learned from pioneer nurse scientists who have shaped health policy with nursing research Recommendations for improving nurses work environments for better patient outcomes
