The Poems of Shelley: Volume Four Michael Rossington,Jack Donovan,Kelvin Everest,2014-02-03 Percy Bysshe Shelley 1792-1822 was one of the major Romantic poets and wrote what is critically recognised as some of the finest lyric poetry in the English language This is the fourth volume of the five volume The Poems of Shelley which presents all of Shelley's poems in chronological order and with full annotation Date and circumstances of composition are provided for each poem and all manuscript and printed sources relevant to establishing an authoritative text are freshly examined and assessed Headnotes

and footnotes furnish the personal literary historical and scientific information necessary to an informed reading of Shelley's varied and allusive verse. Most of the poems in the present volume were written between late autumn 1820 and late summer 1821. They include Adonais, Shelley's lament on the death of John Keats, widely recognised as one of the finest elegies in English poetry, as well as *Epipsychidion*, a poem inspired by his relationship with the nineteen-year-old Teresa Viviani Emilia, the object of an intense but temporary fascination for Shelley. The poems of this period show the extent both of Shelley's engagement with Keats's volume *Lamia, Isabella, The Eve of St Agnes, and Other Poems* (1820), a copy of which he first read in October 1820, and of his interest in Italian history, culture, and politics. Shelley's translations of some of his own poems into Italian and his original compositions in the language are also included here. In addition to accompanying commentaries, there are extensive bibliographies to the poems, a chronological table of Shelley's life and publications, and indexes to titles and first lines. The volumes of *The Poems of Shelley* form the most comprehensive edition of Shelley's poetry available to students and scholars.
