The Parent Trap Nate G. Hilger, 2023-04-04 How parents have been set up to fail and why helping them succeed is the key to achieving a fair and prosperous society Few people realize that raising children is the single largest industry in the United States Yet this vital work receives little political support and its primary workers parents labor in isolation If they ask for help they are made to feel inadequate there is no centralized organization to represent their interests and there is virtually nothing spent on research and development to help them achieve their goals It s almost as if parents are set up to fail and the result is lost opportunities that limit children s success and make us all worse off In The Parent Trap Nate Hilger combines cutting edge social science research revealing historical case studies and on the ground investigation to recast parenting as the hidden crucible of inequality Parents are expected not only to care for their children but to help them develop the skills they will need to thrive in today s socioeconomic reality but most parents including even the most caring parents on the planet are not trained in skill development and lack the resources to get help How do we fix this The solution Hilger argues is to ask less of parents not more America should consider child development a public investment with a monumental payoff We need a program like Medicare call it Familycare to drive this investment To make it happen parents need to organize to wield their political power on behalf of children who will always be the largest bloc of disenfranchised people in this country The Parent Trap exposes the true costs of our society s unrealistic expectations around parenting and lays out a profoundly hopeful blueprint for reform

Park,2020-08-05 2020 Critics Choice Book Award American Educational Studies Association AESA In *Race on Campus* Julie J Park argues that there are surprisingly pervasive and stubborn myths about diversity on college and university campuses and that these myths obscure the notable significance and admirable effects that diversity has had on campus life Based on her analysis of extensive research and data about contemporary students and campuses Park counters these myths and explores their problematic origins Among the major myths that she addresses are charges of pervasive self segregation arguments that affirmative action in college admissions has run its course and become counterproductive related arguments that Asian Americans are poorly served by affirmative action policies and suggestions that programs and policies meant to promote diversity have failed to address class based disadvantages In the course of responding to these myths Park presents a far more positive and nuanced portrait of diversity and its place on American college campuses At a time when diversity has become a central theme and goal of colleges and universities throughout the United States *Race on Campus* offers a contemporary research based exploration of racial dynamics on today s college campuses **The Political Economy of Fossil Fuel Subsidy Removal**

Mariza Montes de Oca Leon,Achim Hagen,Franziska Holz,2024-11 We study the impact of fossil fuel subsidy removal on presidential popularity using difference indifference approaches and a stylized theoretical model Analyzing macro level data for two subsidy removal events in Mexico and Bolivia in the early 2010s we find evidence of a negative impact on presidential approval Our theoretical probabilistic voting model predicts that the decline in popularity is driven by high income groups if subsidies are regressive and that lack of trust in the government lowers popularity of the removal in all income groups We confirm these predictions using micro level data for the Mexican subsidy removal event **North**
