THESE ARE THE
QUESTIONS YOU
WILL BE ASKED
ON THE EXAM

The following table shows the results of the regression analysis for the dependent variable "Number of children in the household" (N = 1,000). The independent variables are "Age of the head of household" and "Gender of the head of household". The table includes the coefficient estimates, standard errors, t-statistics, and p-values for each variable.

1. The first step is to identify the problem or question that needs to be answered. This involves understanding the context and the specific requirements of the task.
