Longhouse Fragmented A:

A Longhouse Fragmented Brian Joseph Gilley, 2014-01-01 Tells the social history of the Iroquois people of Ohio during the buildup to removal A Longhouse Fragmented is a historic ethnography of the Ohio Iroquois and in particular of the people known as the Seneca of Sandusky during the early nineteenth century Using contemporary social theory and interdisciplinary methodologies Brian Joseph Gilley tells the social history of the Native peoples of Ohio before and during the sociopolitical buildup to removal As culturally geographically and socially displaced Iroquois the Sandusky Iroquois were fragmented away from American historiographical constructions of Iroquois social history by the American Indian academic establishment This fragmentation makes the early cultural history of the Ohio Iroquois an ideal foil through which to consider how normalized interpretations of social history come to appear real and have real effects for the subject societies well into the twentieth century These stories are intended to begin an overdue conversation about the effects of a unified Iroquois history congealed around highly specific categories of knowledge This book is groundbreaking in both its content and its theoretical orientation Reframing the story of the Sandusky Senecas removal from a tragic endpoint to an incident in a much longer history of indigenous translocation marks a truly original intervention in the scholarship on Iroquois history and also sheds new light on a little known chapter in the history of Indian removal Jon Parmenter author of *The Edge of the Woods* Iroquoia 1534 1701

bearing witness to a flourishing and innovative world of craftsmanship as well as an extensive trade network During this period the unique and monumental halls with the largest being 47 m long and 10 m wide dominated the hilltops east of Gudme lake Just to the south a smaller building accompanied the large hall and had been purposely demolished and rebuilt several times at the exact same spot The unusually large entrances to the two adjoined buildings lead straight from one to the other thus witnessing a duality of buildings that came to define the aristocratic localities throughout Scandinavia in the following 800 years Hence Gudme represents a starting point for a significant type of architectural ideal as well as a first generation of central places

Queering the Countryside Mary L. Gray, Colin R. Johnson, Brian J. Gilley, 2016-03-15 Choice Outstanding Academic Title of 2016 Rural queer experience is often hidden or ignored and presumed to be alienating lacking and incomplete without connections to a gay culture that exists in an urban elsewhere Queering the Countryside offers the first comprehensive look at queer desires found in rural America from a genuinely multi disciplinary perspective This collection of original essays confronts the assumption that queer desires depend upon urban life for meaning By considering rural queer life the contributors challenge readers to explore queer experiences in ways that give greater context and texture to modern practices of identity formation The book s focus on understudied rural spaces throws into relief the overemphasis of urban locations and structures in the current political and theoretical

work on queer sexualities and genders Queering the Countryside highlights the need to rethink notions of the closet and coming out and the characterizations of non urban sexualities and genders as isolated and in need of outreach Contributors focus on a range of topics some obvious some delightfully unexpected from the legacy of Matthew Shepard to how heterosexuality is reproduced at the 4 H Club to a look at sexual encounters at a truck stop to a queer reading of The Wizard of Oz A journey into an unexplored slice of life in rural America Queering the Countryside offers a unique perspective on queer experience in the modern United States and Canada
