Processes National Academy of Sciences,2001-09 Microorganisms have simultaneously served and assaulted man
throughout history Man is totally dependent on some microbes for life processes while remaining subject to the destructive
capacities of others in diseases not yet conquered Microbes can be marshaled to aid in solving many important global
problems including food shortages resource recovery and reuse energy shortages and pollution Microbiology is particularly
suited to make important contributions to human needs in developing countries yet it has received comparatively little
attention The range of possible applications covers uses by individuals and industries in rural settings villages and cities This
book covers examples of microbial processes that may be useful in developing countries Although many of these processes
may not have a direct and immediate use their scope and diversity should serve to indicate the strong potential for microbial
applications **The Autocar** ,1988-06 *Phytoremediation* David Tsao,2003-02-12 This volume provides a general
overview of phytotechnologies Authors from private industry academia the consulting community and regulatory agencies
have all contributed to it Starting with the basic processes and mechanisms occurring in the soil plant atmosphere continuum
the typical applications of vegetation for cleaning up and remediating contaminated sites are described Since the growth of
vegetation is paramount to this technology the factors within the subsurface environment affecting growth are discussed in
detail as well These include the processes and factors in the soil environment that affect the plant and the subsurface
microbial community After these two introductory chapters the most prevalent applications of phytotechnologies are
reviewed These include vegetated systems for treating organic and inorganic contaminants in solid media hydraulic systems
for controlling and treating contaminant groundwater plumes and vegetative covers for surface water protection and landfill
leachate management Finally this monograph concludes with a discussion of the regulatory implications of applying this
technology towards the clean up and remediation of contaminated sites worldwide Pages ix x *Autocar & Motor* ,1992-02
