### Lesson Synopsis

This lesson helps students understand Mexico's government and economy. Students learn about cultural traits in Mexico and how they are both similar to and different from the U.S. While countries can be part of the same geographic region, their national cultures may be very different. One idea that contributes to a nation's culture is its level of economic development, which is dependent on many factors and can look very different in different countries even when factors of production are similar. Students look at the nation's artwork and how it contributes to its culture, learning about and viewing examples of murals and their significance to Mexican culture.
