Thorpe Edgar Thorpe,2009 This latest edition of The Pearson General Studies Manual continues to provide exhaustive study
material for the General Studies paper of the UPSC Civil Services Preliminary Examination This student friendly book has
been completely revised thoroughly updated and carefully streamlined and is strictly exam centric In this new edition a large
number of new boxes and marginalia with additional and relevant information have been added to provide cutting edge
information to the aspirant Readers will find that important facts and information have been presented in the form of well
structured tables and lists **Collaborative Wisdom** Greg Park,2016-05-23 Why do some corporate superstars collapse
dramatically while others survive and prosper over many decades Is the fall primarily caused by technical factors such as
poor products and pricing financial management or market choices by self aggrandisement or perhaps by poor leadership
attributes and capabilities Greg Park argues that ultimately organisational survival and optimal performance over the long
term is dependent upon collaborative wisdom Within the dominant coalition of a successful community or corporation there
is an inherited pervasive commonly and collectively held dominant logic comprising leadership principles perspectives and
priorities based upon universal values which are understood and accepted as satisfying the requirements and aspirations of
each stakeholder This collaborative wisdom ensures cohesive and consistent behaviour across and within every function of a
complex fast moving organization Its practical application is reflected in the daily operational decisions of leaders within the
organisation be they divisional departmental heads or supervisors Without collaborative wisdom organisational collapse is
the inevitable result primarily through the disintegration of belief confidence motivation cohesion advocacy and energy
within and between key stakeholder groups Collaborative Wisdom examines the nature and criticality of wisdom as a
leadership attribute how effective operational leadership is not just about knowledge and experience but more fundamentally
about a cognitive mental process which considers and consistently applies fundamental values principles perspectives and
priorities in an analytical and affective manner This ensures effective operational leadership and optimal organisational
performance over the long term informed by experience instinct intuition but also by insight judgment and ultimately wisdom
One Health and Zoonoses John S. Mackenzie,Martyn Jeggo,2019-08-19 The One Health concept recognizes that the
health of humans animals and their ecosystems are interconnected and that a coordinated collaborative multidisciplinary and
cross sectoral approach is necessary to fully understand and respond to potential or existing risks that originate at the animal

human ecosystems interfaces Thus the One Health concept represents a holistic vision for addressing some of the complex challenges that threaten human and animal health food safety and the environments in which diseases flourish There are many examples showing how the health of humans is related to the health of animals and the environment Diseases shared between humans and animals are zoonoses Some zoonoses have been known for many years whereas others have emerged suddenly and unexpectedly Over 70% of all new emerging diseases over the past few decades have been zoonoses that have emerged from wildlife most often from bats rodents or birds Examples of zoonoses are many and varied ranging from rabies to bovine tuberculosis and from Japanese encephalitis to SARS Clearly a One Health approach is essential for understanding their ecology and for outbreak response and the development of control strategies However the One Health concept and approach is much broader than zoonoses it extends to including antimicrobial resistance food safety and environmental health and consequently impacts on global health security economic wellbeing and international trade It is this breadth of One Health that connects the papers in this Special Issue
