Human Communication Judy C. Pearson, Paul E. Nelson, Scott Titsworth, Lynn Harter, 2013-12 **A Pastor's Guide to Interpersonal Communication** Blake J. Neff, 2014-01-14

Improving your powers of communication can encourage powerful communication with your parishioners. A Pastor's Guide to Interpersonal Communication: The Other Six Days provides students preparing for the pastoral ministry with specialized training in communications that focuses on the kind of one-on-one conversations they can expect to have with their parishioners. This comprehensive book examines a variety of essential topics including perception, self-disclosure, verbal and nonverbal messages, listening, stages of relational development, power, assertiveness, and dominance, conflict management, forgiveness, persuasion, dual relationships, pastoral family communication, and how to develop a communications model. Each chapter includes Pastoral Conversations (real-life dialogues presented for analysis), Key Concepts for quick student review, Meanings Mania (self-tests on vocabulary), and Unleashing the Power of Interpersonal Communication (student exercises that reinforce the practical aspects of key principles). While many pastors have a great love for the people they minister to, they have difficulty demonstrating that love because they lack the skills to develop and maintain relationships. This book explores how communication works and how to make it work for you by applying the best available interpersonal communications techniques to your relationships with the real people of the church: your parishioners. A Pastor's Guide to Interpersonal Communication: The Other Six Days examines how self-disclosure works and when it's appropriate for a pastor, stumbling blocks and building blocks for effective listening, the differences between power, assertiveness, and dominance, and when to use each conflict management style and negotiation strategies, several myths about forgiveness, dual relationships, and how to avoid them, pitfalls to avoid in pastoral family communication, and much more. A Pastor's Guide to Interpersonal Communication: The Other Six Days is an essential resource for Bible college students and for students at the pre-ministerial and seminary levels. It's also a valuable professional tool for clergy practitioners who need help with their communication skills.

Human Communication Stewart L. Tubbs, Sylvia Moss, 1994. This text provides a complete overview of the subject of human communications, presenting the general principles of communication specific contexts: public speaking, mass media, group discussion, and ethics. The text combines a theoretical base with up-to-date examples and current research. The seventh edition features a new chapter on ethics and has expanded treatment on relationship processes, verbal communication, listening, and intercultural communication.

The Ethics of Listening Elizabeth S. Parks, 2018-11-16. There are ways of being in the world that create a flourishing life and other ways that restrict that life, both for ourselves and others. Listening is one of these ways of being. Listening gives shape to speaking, inviting other people into a dialogue that impacts our everyday lives. Our acts of listening, like all communication, are shaped by our cultural and individual differences. Unfortunately, as people consider ways to ethically listen, they often abide by a set of conversational rules that do not reflect or benefit their own or others' unique contexts and communities. In this book, Parks

responds to gaps in scholarship related to listening in communication research and difference in ethics scholarship Rather than imposing a rigid ethical norm that is unresponsive to diverse cultural practices her proposed listening ethic is one that is highly contextualized and pluralistic and yet dares to make normative claims Using discourse research methods that are both qualitative and quantitative Parks goes beyond describing what listening is in a given context to what ethical listening should be Empirical findings about listening from multiple communities that represent diverse ethnic gender and disability orientations are interwoven with insights from communication ethics to develop the first ever dialogic ethics of listening that is empirically based culturally grounded and normative Ten shared values emerge as guidelines for good listening in this ethic be open cultivate understanding practice authenticity engage in critical thinking invest in relationship care for the dialogue focus on what matters be intentionally present remember the ongoing story and be responsive to need These values while shared across cultures may be expressed in a diverse and sometimes conflicting communicative practices Ultimately Parks proposes that ethical listening is best conceptualized as pursuit of sustainable hospitality in our dialogic interactions within and across difference By understanding the ways that different people share listening values yet practice them differently we can learn to trust each other and attest to the hope that ethical dialogue is possible
