

CASE STUDY 3. MANIPULATION OF ACCOUNTING RECORDS

COMPANY BACKGROUND

Chilean subsidiary of a Canadian parent imports specialized industrial machinery, with annual revenues of \$110 million.

FINDINGS

Internal Audit discovered a reimbursement to the local CEO for the amount of \$45,456, arising from the return of a vehicle which he had acquired from the Company on October 31, 2012, via a deduction from payroll. On October 31, 2012, the vehicle, which was the property of the Company, was sold to the CEO at a price of \$38,781. (The CEO had the option to acquire the vehicle at a pre-determined price).

The CEO returned the vehicle and sold it to the Company in November 2012 at the higher price of \$45,456. A check for this amount was issued by the Company to the CEO on the same day (November 11, 2012).

Upon the review of the supporting documentation, it was revealed that the accounting entry of November 11, 2012 was made in December 2012. The journal entry for the check was booked in the SAP system on December 16, 2012 and the CEO signed as having received the check on December 23, 2012. This was the only check dated in the month of November in this period. All prior and subsequent checks were dated in December. The check was issued in December but booked to the accounting system with a November date. The date on the check was deliberately manipulated so as to give the impression that the vehicle was reacquired by the Company on November 11, 2012, when in fact this took place a month later.

During the time that the vehicle was the property of the CEO, it was involved in an accident and it was resold to the Company in a damaged state. This apparently was the reason that the local Chilean CEO did not want to retain the ownership of the vehicle.

Internal Audit had also observed that the check was prepared by an employee who worked in the Accounting Department. Corporate Policy requires that Treasury was solely responsible for the custody and emission of all checks, a breach of which occurred in this case. Segregation of duties was not applied in the emission of the check and the date and the accounting records were deliberately altered.

Gardiner,Eileen O'Brien Webb,2022-08-05 This book engages with the concept of age friendly environments adopting multi perspectivity to demonstrate how age friendly environments can contribute to shifting how we think feel and act toward issues of age and ageing and operate as a vehicle to improve understandings of ageism Drawing from traditionally distinct fields the text demonstrates theoretical and applied dimensions of the age friendly global agenda with several chapters discussing topics

that have to date been underrepresented in age friendly scholarship including education health and justice systems The case studies encourage critical engagement with the issue of ageism in age friendly scholarship It presents a clear understanding of the inequalities challenges and opportunities of ageing and of the ways international regional national and sub national commitments in health development and human rights and are further impacted by ageing through designing implementing monitoring and evaluating policies and programmes The essays utilise a critical and interdisciplinary dialogue to enhance discussion of the age friendly environment agenda through the inclusion of age friendly perspectives in addition to its processes and destinations in an ageing society The book serves as a catalyst to stimulate research policy and public interest in the physical social and regulatory environments in which we age and the consequent impact upon health and well being It will be of interest to professors graduate students and undergraduate students in policy sociology health planning and gerontology It is also recommended reading for policy makers politicians think tanks and lobbyists who are concerned with age all age inclusiveness

The Future of Post-Human Accounting Peter Baofu, 2014-06-01 Is the invention of accounting so useful that as Charlie Munger once said you have to know accounting It s the language of practical business life It was a very useful thing to deliver to civilization I ve heard it came to civilization through Venice which of course was once the great commercial power in the Mediterranean WOO 2013 This positive view on accounting can be contrasted with an opposing view by Paul Browne that the recent accounting scandals have brought a new level of attention to the accounting profession as gatekeepers and custodians of social interest DUM 2013 Contrary to these opposing views and other ones as will be discussed in the book accounting in relation to addition and subtraction are neither possible or impossible nor desirable or undesirable to the extent that the respective ideologues on different sides would like us to believe Of course this reexamination of different opposing views on accounting does not mean that the study of addition and subtraction is useless or that those fields related to accounting like bookkeeping auditing forensics info management finance philosophy of accounting accounting ethics lean accounting mental accounting environmental audit creative accounting carbon accounting social accounting and so on are unimportant WK 2013 In fact neither of these extreme views is plausible Rather this book offers an alternative better way to understand the future of accounting in regard to the dialectic relationship between addition and subtraction while learning from different approaches in the literature but without favoring any one of them nor integrating them since they are not necessarily compatible with each other More specifically this book offers a new theory that is the double sided theory of accounting to go beyond the existing approaches in a novel way and is organized in four chapters This seminal project will fundamentally change the way that we think about accounting in relation to addition and subtraction from the combined perspectives of the mind nature society and culture with enormous implications for the human future and what I originally called its post human fate
