Becoming Barnabas Paul Moots,2004-10-30 Western culture has made a cult of success and the church has accepted the larger culture s definition focusing on success as growth in membership and budget rather growth in faithfulness as disciples of Jesus When we do not measure up we become discouraged disillusioned and perhaps even envious Moots details numerous examples to show how the ministry of encouragement offers a workable effective pattern for church leadership I am convinced he writes that accepting Barnabas as my model has changed my ministry for the better and that Barnabas s example can benefit any pastor and congregation who take his lessons seriously Barnabas and his ministry of encouragement offer us a focus for the vital messy and exhilarating work required of us as faith communities The Future

Dealy,Andrew R. Thomas,2004-03-30 What makes a great boss Bosses don t become great because of their title rank degree of authority office size or benefits package Great bosses aren t even necessarily great managers Instead they possess a set of core competencies that set them apart from mere managers The skill set of great bosses entails five qualities they do the right thing for the right reason they never make the same mistake twice they set their personal expectations higher than those of their bosses they go to their bosses with action plans not problems and they follow up If a boss has only one of these characteristics he or she is probably very successful But application of all five defines what it means to be a great boss to be successful in good times and bad through change and adversity and to be recognized as such by the people you work for as well as by the people who work for you *Church on the Edge of Somewhere* George B.

Thompson Jr.,2007-11-19 Most congregations today exist in what George Thompson calls the middle of anywhere They live comfortably with their surrounding culture focusing their energies on serving the needs of their current members These congregations have many strengths and gifts that they can exercise without changing a thing But Thompson envisions a deeper more prophetic call for congregations to explore the meaning of being in the world but not of it a church on the edge of somewhere Thompson sees a church that is deeply engaged in ministering to the community while calling on others to commit to doing the same By analyzing the interaction between a congregation s focus of identity and their stance with the world Thompson has created a helpful grid for congregations to place themselves on today s cultural map A congregation that sees itself as existing on the margins of society will look different than one that sees itself as embedded in society A congregation that hears a call to serve the surrounding community will look different from one that focuses on its internal needs Knowing where they stand now is the key for congregations to discover where they must go in the future to fully live out their call to be God s people in the world

Our Church A Holiness Heritage in the Caribbean Carlyle Williams,2008-02
Wesleyan Leadership in Troubled Times David L. McKenna,2002 Christians are to be in the world not of the world But worldly self interest has crept into the church The ultimate goals of filling empty pews constructing bigger buildings and

ultimately gaining greater glory for the church itself are disguised by seemingly altruistic strategies like church planting and marketing the Gospel Wesleyan Leadership in Troubled Times calls the church to be holy and whole in motive mission and ministry McKenna challenges the church to confront our self interested culture with the self sacrificing love of Jesus Christ

Take the Next Step Lovett H. Weems JR.,2011-07-01 Learn how to work for genuine and effective change in your church without trying to throw out everything that has gone before Pastors and other congregational leaders are eager to institute meaningful and effective change in their congregations They know that old attitudes and perspectives prevent the church from fulfilling its mission to make disciples of Jesus Christ Yet too often church advocates insist that if genuine change is to occur in the church then everything must change The board must be wiped clean and new technologies new worship styles and even new theologies must replace what has come before The problem with such calls for radical change says Lovett Weems Jr is that they are not true to the way that genuine and lasting change takes place Like every other organization churches rest on a cultural foundation of shared assumptions values and practices The paradox of successful change is that this foundation is at the same time the source of resistance to change and what makes change possible Lasting transformational change grows out of the congregation s current sense of its story and its mission Transformational leaders know how to build on the church s identity making new ministries and emphasizes the natural extension of what has gone before In other words they know how to make the story of change the next chapter in the book of the congregation s life rather than throwing the book away and trying to start over An astute student of management and leadership theory Weems offers congregational leaders essential insights into how they can work with and through their churches ministries to bring about authentic and faithful growth
