Religious Education in Malawi and Ghana Yonah Matemba, Richardson Addai-Mununkum, 2021-03-15 Religious Education in Malawi and Ghana contributes to the literature on opportunities and complexities of inclusive approaches to Religious Education RE It analyses how RE in Malawi and Ghana engages with religious pluralisation and provides a compelling case for the need to re evaluate current approaches in the conceptualisation curriculum design and delivery of RE in schools in Malawi and Ghana The book explains how a pervasive tradition of selection involving exclusion and inclusion of religion in RE leads to misrepresentation and in turn to misclusion of non normative religions where religion is included but marginalized and misrepresented The book contributes to wider discourse of RE on opportunities as well as complexities of post confessional approaches including the need for RE to avoid perpetuating the continued legitimisation of selected religions and in the process the delegitimization of the religious other as a consequence of misrepresentation and misclusion Inspired by Braten s methodology for comparative studies in RE the book draws on two qualitative studies from Malawi and Ghana to highlight the pervasive problems of religious misclusion in RE This book will be of great interest for academics scholars and post graduate students in the fields of RE African education educational policy international education and comparative education

Macleard, 2018-05-22 The missionary work of the Seventh day Adventist Church started in Southern Malawi in 1902 and histories of churches are usually told from that starting point This book uses a different approach it tells the story of Lunjika Mission earlier called Mombera Mission which begins in 1932 showing how the SDA Church met a new culture that of the strongly patrilineal Ngoni and their neighbours to the North and how it dealt with other churches that had started missionary work in that broad area up to two generations before Guide to Malawi Peter Randall, 1971 *Resources in Education*

Language of Instruction and Cognitive Development  
Anja Langer, 2013 Malawi's recent education statistics show that a high percentage of pupils do not achieve their study goals and subsequently drop out of school This study examines the underlying reasons yet the main focus rests on the language of instruction Learners in three different language areas in Malawi participated in a picture based test to find out whether the development of problem oriented logical thinking is influenced by the instruction in the mother tongue in early primary school Answers are offered with the help of tests and observations during the tests as well as interviews with teachers parents and decision makers Series Beitrage zur Afrikanistik Contributions to African Vol 21

Developing Effective Policies for HIV/AIDS Education practice in Sub Saharan Africa: The Case of Urban Schools of Malawi: A synergy of pupils needs, policies and practice Paul Makocho, 2014-11-01 HIV AIDS has been named the Sub Saharan disease In countries that have achieved significant declines in HIV prevalence young people have registered the biggest behavioural changes It means they hold the keys not only to our understanding of the epidemic but more importantly to the efforts required to stem the tide of infections However the majority of young people are ignorant of how to prevent transmission have low compliance to condom use which is in some cases accentuated by misconceptions about HIV AIDS transmission and have insufficient knowledge regarding transmission and avoidance behaviours As such consensus on feasible preventive interventions target young people particularly those in schools It is on this premise that the book unlocks the key pillars in effective HIV AIDS education policies and practices The study has drawn upon the experiences of selected Urban Schools in Malawi to explore the needs of young people in classroom the extent to which the classroom practices respond to the needs and the factors influencing these using questionnaires interviews lesson observations and document analysis Malawi typically represents most Sub Saharan African countries in terms of challenges faced by education systems Given the similar cultural settings of the people of Sub Saharan Africa the findings and recommendations of the study generalises to the education systems of Sub Saharan Africa to a greater extent The book shows the need for open discussion climates on HIV AIDS issues despite a conservative cultural and religious adult world that is not open It has also identified a need for explicit and accurate knowledge on HIV AIDS issues opportunities to acquire behavioural skills for HIV prevention and involvement of external speakers in classroom HIV AIDS education Current classroom practice does not address the pupils needs adequately Factors

influencing this can be linked to lack of policies responsive to culture and religion ineffective and inadequate teaching policy guidelines and lack of a policy prioritising HIV AIDS education The findings suggest that in future effective HIV AIDS Education needs to be informed by the pupils needs To address these needs support from the wider society and related policies coupled with appropriate management and classroom practice will be required The book is therefore an indispensable tool for education systems in Sub Saharan Africa It provides an effective model for Contradictions in Post-war Education Policy Formulation and Application in Colonial Malawi 1945-1961 I. C. Lamba,2010 The post World War II colonial reconstruction programmes for economic recovery and general political and social development in Malawi then known as Nyasaland necessitated increased education But the sincerity of metropolitan development plans for the colonies could only be adequately appraised through the degree of demonstrated commitment in the implementation of the announced plans This study seeks to examine chronologically the development and application of colonial education policies during the period 1945 to 1961 in Malawi The parties involved included the British Colonial Office the Nyasaland Protectorate Government and the Christian missionaries on the one hand and the European settlers Asian Coloured and African communities on the other as the target groups of the policies Devising educational policies of equitable benefit to all the racial and social groupings in Malawi posed enormous problems to the colonial administration This study examining the dynamics and course of policy contends that given the prevailing economic and political conditions non European education especially that of Africans experienced retardation in favour of European education Sometimes apparent government ineptitude combined with calculated needs for the Europeans produced under development for African education in Malawi and the country s economy In the end African education operated against the odds of missionary and government apathy This book discusses the impact on education generally of the Nyasaland Post War Development Programme the Colonial Office Commissions of 1947 1951 and 1961 and the local Committees set up to inquire into the retardation of African education in its various categories including female and Muslim in response to both local and international pressure Although considered a priority African education developed slowly contrary to the declared goal of Post War colonial policy of self determination with its potential demands for trained local manpower The argument demonstrates the tenacity of the Federal Government of Rhodesia and Nyasaland in playing down African education as a political strategy from 1953 to 1961 at the same time as it accorded a better deal to Asian and Coloured education , *The Environment and Science and Technology Education* A. V. Baez,G. W. Knamiller,J. C. Smyth,2013-10-22 The Environment and Science and Technology Education covers topics on key issues in environmental education school based primary and secondary education and community based environmental education The book also discusses topics on tertiary professional and vocational environmental education and non formal public environmental education The text will give practical help to teachers in all countries in order to raise standards of education in those topics essential for development **The Oxford Handbook of Technology and Music Education** S.

Alex Ruthmann, Roger Mantie, 2017-07-06 Few aspects of daily existence are untouched by technology Learning and teaching music are no exceptions and arguably have been impacted as much or more than other areas of life Digital technologies have come to affect music learning and teaching in profound ways influencing how we create listen share consume interact and conceptualize musical practices and the musical experience For a discipline as entrenched in tradition as music education this has brought forth myriad views on what does and should constitute music learning and teaching To tease out and elucidate some of the salient problems interests and issues The Oxford Handbook of Technology and Music Education critically situates technology in relation to music education from a variety of perspectives historical philosophical socio cultural pedagogical musical economic policy organized around four broad themes Emergence and Evolution Locations and Contexts Social and Cultural Issues Experiencing Expressing Learning and Teaching and Competence Credentialing and Professional Development Chapters from a highly diverse group of junior and senior scholars provide analyses of technology and music education through intersections of gender theoretical perspective geographical distribution and relationship to the field The Oxford Handbook of Technology and Music Education s dedication to diversity and forward facing discussion promotes contrasting perspectives and conversational voices rather than reinforce traditional narratives and prevailing discourses

**Mission Foundations and other Essays** S. Nkhoma, 2020-07-09 The first two essays in this book examine the biblical and philosophical basis for mission in the post modern world emphasising the experiential quality of mission over against the rational Subsequent essays discuss various aspects of mission with a focus on the Malawian context They highlight the impact of missionary work on the formation shaping and developments of Malawi as a national state Other essays examine various issues in New Testament scholarship including images of the Historical Jesus

and how these relate to wisdom and apocalyptic traditions      *Regime and Education in Zimbabwe* Bekithemba Dube, Albert Mufanечиya, 2024-06-10 This collection focuses on the post independence educational development in Zimbabwe It shows how the ZANU PF regime has presided over the demise of education and covers a wide range of topics such as violence against teachers poor salaries student activism minority languages and curriculum innovations This volume argues that the regime has used education as a tool for repression Curriculum innovations introduced and implemented in Zimbabwe have little to do with improving the performance of the learners and more to do with stopping teachers from pushing the regime change agenda Consequently this has resulted in a nation in crisis marked with high turnover poor economy and mass exodus of teachers and learners The contributors to this volume make various suggestions which could recenter education towards addressing the experiences of the learners as opposed to being used as a tool to push repression and thwart democracy
