children as future consumers For decades researchers and industry practitioners alike have overlooked and undervalued the
significance of children s perspectives and their influence as decision makers However the United Nations Convention on the
Rights of the Child 1989 emphasizes that children have the right to participate in matters that affect them With this in mind
the contributors to this edited collection draw attention to children as thinkers actors and transformers of the future of the
tourism and hospitality industry Through a mix of conceptual and empirical chapters the book collectively supports an
overarching theme the empowerment of children as present and future consumers should be a core component of any
sustainable tourism initiative Towards this goal the chapters herein represent internationally diverse perspectives and offer a
number of innovative recommendations to the industry s practitioners *Subject Guide to Books in Print* ,1983 *The*
