Sellheim, Marzia Scopelliti**

Mlit 1 Memorandum:

Memorandum Rand Corporation,1970 *Transport, Energy and CO2* International Energy Agency,2009 Car ownership is set to triple by 2050 trucking activity will double and air travel could increase fourfold This book examines how to enable mobility without accelerating climate change it finds that if changes are made to the way people travel adoption of technologies to improve vehicle efficiency and a shift to low CO2 fuels it is possible to move onto a different pathway where transport CO2 emissions by 2050 are far below current levels at costs that are lower than many assume the report discusses the prospects for shifting more travel to the most efficient modes and reducing travel growth rates improving vehicle fuel efficiency by up to 50% using cost effective incremental technologies and moving toward electricity hydrogen and advanced biofuels to achieve a more secure and sustainable transport future If governments implement strong policies to achieve this scenario transport can play its role and dramatically reduce CO2 emissions by 2050 *Defenders of Japan* Garren

Mulloy,2021-12-01 Japan s post war armed forces are a paradox both embarrassing remnants of the past and valuable repositories of experience This book charts the development of the Japan Self Defense Forces JSDF from 1954 as both unorthodox military institutions and servants of a civil society that decries militarism Investigating JSDF contributions to Japanese and global security the evolution of such contributions during and after the Cold War and their possible reconfiguration for Japan s security needs ahead Garren Mulloy offers insight into the Forces past present and future He explores the characteristics and contradictions of Japanese policy including novel approaches in response to an increasingly assertive China the latent threat of North Korea and contributory pressure from the US Though the American alliance remains the core of Japanese security new partnerships and international overtures will also shape the Forces place in Prime Minister Abe s new vision of proactive contributions to peace *Defenders of Japan* deconstructs how the JSDF have adapted and will continue to adapt within domestic norms caught between unresolved legacies of Japan s imperial past and a dynamically shifting balance of future global power

Dictionary and Introduction to Global Environmental Governance Richard E. Saunier,Richard Albert Meganck,2013 This unique dictionary and introduction to Global Environmental Governance GEG written and compiled by two veterans of the international stage provides a compilation of over 5000 terms organizations and acronyms drawn from hundreds of official sources An introductory essay frames the major issues in GEG and outlines the pitfalls of talking past one another when discussing the most critical of issues facing the planet It challenges those who are concerned with the management of our planet and its inhabitants to understand and accept a vocabulary common to the often opposing objectives sought in the many GEG instruments The result is a practical tool that should find a central place on the desk of anyone involved in environmental management development or sustainability issues anywhere in the world including the United Nations government policy makers NGOs and other stakeholder groups the business community and students and professionals **The Fukushima and Tohoku Disaster**

School of Societal Safety Sciences,2017-10-26 The Fukushima and Tohoku Disaster A Review of the Five Year Reconstruction Efforts covers the outcome of the response five years later to the disasters associated with the Great East Japan earthquake on March 11 2011 The 3 11 disaster as it is referred to in Japan was a complex accident the likes of which humans had never faced before This book evaluates the actions taken during and after the earthquake tsunami and nuclear accident for which the Japanese government and people were not prepared The book also provides recommendations for preparing and responding to disasters for those working and living in disaster prone areas making it a vital resource for disaster managers and government agencies Includes guidelines for governments communities and businesses in areas where similar complex disasters are likely to occur Provides information propositions suggestions and advice from the people that were involved in making suggestions to the Japanese government Features case studies both pre and post disaster of three simultaneous disasters the Great East Japan earthquake the resulting tsunami and the Fukushima Nuclear Power Plant disaster **Ocean and Polar Research** ,2002 **Energy and Water Development Appropriations for 2010, Part 1, 111-1 Hearings** ,2009 **Japan's Maritime Security Strategy** L. Black,2014-03-07 Since the late 1990s the Japan Coast Guard JCG has countered a myriad of outlaw threats at sea including piracy terrorism the proliferation of Weapons of Mass Destruction WMD and the threat posed by rogue states Japan s innovative strategy has transformed maritime security governance in Southeast Asia and beyond More Urban Water Fransje Hooimeijer,2014-04-21 An integral approach to the relation of urbanism and water management in Dutch water cities and to adjustments necessary to upgrade water management systems to the requirements imposed by a changing amount or precipitation and by changing function technology and scale of urban areas Separate chapters deal with the transformation of the historical city the consolidation of the inter war city and the restructuring of the post war city to meet future conditions Comparisons of the Dutch situation with South Korean Japanese and German urban areas is also included **Making Choices about Hydrogen** Lynn Krieger Mytelka,Grant Boyle,2008 Since the mid 1990s the emergence of a hydrogen economy and the speed with which it will arrive have been vigorously debated As a disruptive technology dominant designs for the production storage and distribution of hydrogen have not yet been established Neither have performance characteristics been achieved to compete with the existing combustion engine though the efficiency and durability of hydrogen fuel cells are improving This publication highlights the uncertainties involved in making choices about hydrogen and fuel cells in planning the development policies on national energy environment and transport sector Publisher s description Foreign Operations, Export Financing, and Related Programs Appropriations for Fiscal Year 1993 United States. Congress. Senate. Committee on Appropriations. Subcommittee on Foreign Operations, Export Financing, and Related Programs,1992 *Ethical Issues in Aviation* Elizabeth A. Hoppe,2018-10-16 The aviation industry is unique in two major ways firstly it has a long history of government involvement dating back to the early days of aviation and secondly its primary concern is the safety of its passengers and crew These

features highlight the importance of ethical decision making at all levels of the industry. However, well-publicized problems such as the disappearance of Malaysia Airlines Flight 370 highlight the need for ethics to take a more prominent role in the field. *Ethical Issues in Aviation* focuses on both past and current topics in aviation, providing the reader with an overview of the major themes in aviation ethics that cover a broad range of subjects. Contributors include academics who do research in the field as well as professionals who provide first-hand accounts of the ethical situations that arise in the aviation industry. This second edition has been thoroughly revised throughout to bring it up to date and features several new chapters that cover recent events and topics. This book enhances student learning by providing faculty, students, and those interested in aviation with discussion of the most pressing ethical issues that continue to impact the industry.

Emerging Legal Orders in the Arctic Akiho Shibata, Leilei Zou, Nikolas Sellheim, Marzia Scopelliti, 2019-04-11 More than ever before, the changing environmental and political landscape in the Arctic requires stability and foreseeability based on resilient common norms. The emerging legal orders in the Arctic cannot be legitimately created or effectively implemented unless all relevant actors are involved. Simultaneously, it must always be based on respect for the sovereign rights of the eight Arctic states in the region as well as the tradition and cultural livelihood of the local communities. It is this delicate balance between Arctic and non-Arctic interests that is the core problematique for the emerging legal orders in the Arctic. *Emerging Legal Orders in the Arctic* critically examines the role of non-Arctic actors in this advancement of the shape and scope of the Arctic legal order. Discussing the admittance and participation of Observer states and organisations in the Arctic Council, including task force meetings where new treaties are negotiated, it details the issues and successes this can result in. Setting up the context of the current legal orders in the Arctic, the book discusses Asian indigenous and European perspectives amongst others. There is a strong focus on the groundbreaking fisheries agreement of November 2017 in the Central Arctic Ocean (CAO) and the impact on both Arctic and non-Arctic actors. Interests in marine living resources, scientific cooperation, and the Arctic shipping regimes and governance are also thoroughly discussed from multiple perspectives. The book combines the expertise of academics and practitioners in the fields of international law and Arctic governance, uniquely focusing on Asian actors in the Arctic legal order. The resulting study is a fascinating insight into the interplay between non-Arctic actors and the Arctic legal order and will be invaluable to academics in the field of Arctic and international law.

Identity Change and Foreign Policy Linus Hagstrom,2015-10-05 Identity has become an explicit focus of International Relations theory in the past two to three decades with one case attracting and puzzling many early identity scholars Japan These constructivist scholars typically ascribed Japan a pacifist or antimilitarist identity an identity which they believed was constructed through the adherence to peaceful norms and antimilitarist culture Due to the alleged resilience of such adherences little change in Japan s identity and its international relations was predicted However in recent years Japan s foreign and security policies have begun to change in spite of these seemingly stable norms and culture This book seeks to address these changes through a pioneering engagement with recent developments in identity theory In particular most chapters theorize identity as a product of processes of differentiation Through detailed case analysis they argue that Japan s identity is produced and reproduced but also transformed through the drawing of boundaries between self and other In particular they stress the role of emotions and identity entrepreneurs as catalysts for identity change With the current balance between resilience and change contributors emphasize that more drastic foreign and security policy transformations might loom just beyond the horizon This book was originally published as a special issue of *The Pacific Review*
