

Minnesota Department of Public Safety Accident Report

(Form PS-32003-10)

Preliminary information about your accident is located at the top. Here you will find a unique local case number, the number of vehicles involved, and if there were any injuries or fatalities as a result of the crash. The date, time, and location of the collision can also be found in this first section.

There are two boxes that provide details about each unit involved in the crash. To the left, you will find information about the first driver and to the right are details about the second driver. Supplemental pages may accompany the report if your accident involved more than two units.

If your accident involved a commercial vehicle such as an 18-wheeler, tractor-trailer, or semi-truck, details about the commercial vehicle can be found below the vehicle boxes.

Located near the middle of the page are the names of any passengers or non-motorists involved in the crash, along with what unit they occupied (if applicable), their seating position, and what type of safety equipment they were using, if any. Each person's injury status and whether or not they were transported to a hospital is also noted in this section. The number codes used here are all explained on Page 2 of the code sheet.

Along the border of each driver box are smaller boxes for the investigating officer to enter numerical codes regarding the driver's apparent contributing factors to the crash (up to two factors for each driver), the driver's pre-crash maneuvers, the driver's apparent physical condition, and if the investigating officer recommended an examination of the driver. The definitions for these numbers are located on Page 1 of the code sheet that accompanies the accident report.

The two boxes beneath the driver boxes are used to supply information about the vehicles involved in the collision, including the year, make, model and insurance information.

The codes entered along the border of the vehicle boxes are used to define each vehicle's number of occupants, vehicle type (car, truck, SUV, motorcycle, etc.), if it's a special use vehicle (taxi, school bus, military vehicle, etc.), and a description of the vehicle's damage. To define the number codes, view Page 1 of the code sheet.

The "Damaged Property" line on the report is used to enter the owner's name and a description of the damage. This line is not used to include damage to any of the vehicles involved in the crash. If the damage is to public property, the investigating officer will fill out a yellow damaged property tag and include the property tag number on the accident report so that the state, county, or city that owns the property can be reimbursed to repair or replace the property.

The block in the lower left is for the investigating officer to sketch a diagram of the crash. To the left of the diagram are small boxes that contain number codes that indicate the accident type (by first harmful event), if a school bus was involved, the location of the first harmful event, if the accident occurred on a bridge or work zone, and the roadway design, surface condition, and character. An explanation of these codes can be found on Page 1 of the code sheet.

Located at the bottom of the form are the rank, name, badge number, and agency name of the investigating officer who prepared the accident report.

The narrative box is for the officer to give a written description of the accident based on their investigation. On the right side of the box are smaller boxes with number codes that denote the type of traffic control device at the scene of the crash, if the signal was working properly, where the crash took place in relationship to an intersection or junction, the posted speed limit where the first harmful event occurred, the primary and secondary weather conditions, the lighting conditions at the scene of the accident, if any pictures were taken of the crash, and a diagram number that best describes the collision (e.g., rear-end, head-on, left turn, sideswipe, etc.). These number codes are defined on Page 1 of the code sheet.

The book delves into Mn Accident Report Codes. Mn Accident Report Codes is a vital topic that needs to be grasped by everyone, ranging from students and scholars to the general public. This book will furnish comprehensive and in-depth insights into Mn Accident Report Codes, encompassing both the fundamentals and more intricate discussions.

1. The book is structured into several chapters, namely:
 - Chapter 1: Introduction to Mn Accident Report Codes
 - Chapter 2: Essential Elements of Mn Accident Report Codes
 - Chapter 3: Mn Accident Report Codes in Everyday Life
 - Chapter 4: Mn Accident Report Codes in Specific Contexts
 - Chapter 5: Conclusion
2. In chapter 1, this book will provide an overview of Mn Accident Report Codes. The first chapter will explore what Mn Accident Report Codes is, why Mn Accident Report Codes is vital, and how to effectively learn about Mn Accident Report Codes.
3. In chapter 2, the author will delve into the foundational concepts of Mn Accident Report Codes. This chapter will elucidate the essential principles that need to be understood to grasp Mn Accident Report Codes in its entirety.
4. In chapter 3, this book will examine the practical applications of Mn Accident Report Codes in daily life. The third chapter will showcase real-world examples of how Mn Accident Report Codes can be effectively utilized in everyday scenarios.
5. In chapter 4, the author will scrutinize the relevance of Mn Accident Report Codes in specific contexts. The fourth chapter will explore how Mn Accident Report Codes is applied in specialized fields, such as education, business, and technology.
6. In chapter 5, the author will draw a conclusion about Mn Accident Report Codes. This chapter will summarize the key points that have been discussed throughout the book.

The book is crafted in an easy-to-understand language and is complemented by engaging illustrations. This book is highly recommended for anyone seeking to gain a comprehensive understanding of Mn Accident Report Codes.
