**Future Jobs** Edward E. Gordon,2018-03-05 A pervasive disconnect exists between the job career culture and the present economic reality in America This book offers powerful strategies for stemming the employment crisis and proposes comprehensive solutions for businesses government

and job seekers alike America's low unemployment rate overshadows the fact that more than 20 million Americans are still unemployed. Moreover, more than eight million jobs are vacant because employers cannot find qualified candidates. It is projected that if this imbalance between available positions and skills is not quickly addressed, more than 14 million jobs will be vacant by 2020, and that many more people will be out of work. In *Future Jobs*, historical economist Edward E. Gordon explains how increasingly complex technologies, global demographic shifts, and outdated education and employment systems are converging and may imminently cause a labor market crisis. How can we ensure that enough people possess the skills necessary to holding the jobs of today and tomorrow? This book points to a solution gaining traction across the United States: Regional Talent Innovation Networks (RETAINs), alliances of businesses, educators, government agencies, and nonprofit organizations that successfully bridge the talent gap. Additionally, it provides information on the most promising jobs and careers of the next decade for early career job seekers and for workers who are looking to change career paths.

**Landscape Professional Practice** Gordon Rowland Fraser, 2015-02-28 Graduate of the Royal Botanic Gardens Kew Chartered Landscape Architect, MBA and Barrister. Gordon Rowland Fraser draws upon 30 years of project management, professional practice, and teaching experience to provide an uncomplicated and intuitive guide to the business aspects of the landscape profession. An indispensable reference for seasoned professionals, the book will enable the student or novice practitioner to turn their drawing board inspiration into reality without being overwhelmed or afraid of overseeing the implementation of their proposals. Guided by the Landscape Institute's 2013 Pathway to Chartership syllabus, this structured step-by-step narrative guide sets out the documentation commonly used within the landscape profession and makes accessible a logical and sequential understanding of contractual relationships, procurement strategies, processes of preparing client estimates and obtaining competitive quotations, preparing contract documentation, and administering formal contracts, general concepts of law as they relate to land management and the landscape profession, business administration, market appraisal and positioning, and of the landscape consultant's appointment. As an understanding of professional practice is intrinsic to all Landscape Institute accredited courses, this is an essential text for every landscape architecture student during their education and their subsequent journey into professional practice. Those undertaking Garden Design Diplomas will similarly find the book invaluable as they venture into the world of creativity and commerce, while the seasoned practitioner will find it a comprehensive point of reference to add to their bookshelf.
