Inspection of Medical Devices Almir Badnjević, Mario Cifrek, Ratko Magjarević, Zijad Džemić, 2017-10-26 This book offers all countries a guide to implementing verification systems for medical devices to ensure they satisfy their regulations. It describes the processes, procedures, and need for integrating medical devices into the legal metrology framework, addresses their independent safety and performance verification, and highlights the associated savings for national healthcare systems, all with the ultimate goal of increasing the efficacy and reliability of patient diagnoses and treatment. The book primarily focuses on diagnostic and therapeutic medical devices and reflects the latest international directives and regulations.
