This is a guide not on what to do when confronted with difficult ethical dilemmas but on how to think about what to do. The author presents common ethical dilemmas that addiction professionals face in their daily work such as boundary issues, confidentiality, dual relationships, and more, and asks readers to consider their own responses to these dilemmas. The book then shows readers how to apply new models of ethical thinking to practice. Key features: Presents an ethical self-exam to encourage critical thinking about one's own decision-making method. Introduces a variety of models such as the social contract theory, existentialist theory, and ethical egoism. Discusses how biases, emotional reactions, and fallacies can weaken ethical decision-making. Presents an introductory Ethics Judgment Kit, a simple practical decision-making procedure for students.
