THE MONOPOLY BOARD GAME

MONOPOLY is a board game for two to six players. It is a game of strategy and chance.

The game is played on a board that represents a city. The board has 40 squares, each with a different color and a different name. The squares are arranged in a rectangular pattern, with a start square and a finish square.

Each player starts with a set of money, a set of properties, and a set of houses. The goal of the game is to be the first player to own all the properties on the board and to build houses on all the properties.

The game is played by rolling a die and moving a token on the board. The player who moves their token to a square that they own can buy more properties or build houses.

The game is a game of strategy and chance. The player who is first to own all the properties and build houses on all the properties wins the game.

The game is a game of strategy and chance. The player who is first to own all the properties and build houses on all the properties wins the game.

The game is a game of strategy and chance. The player who is first to own all the properties and build houses on all the properties wins the game.
