Le Souffle Du Vent:

La Production Du Corps Maurice Godelier, Michel Panoff, 2022-02-14 Dans quelle mesure le corps fait-il l'identité d'un être humain Et pour combien de temps si quelque chose survit de lui après sa mort ce n'est pas tout fait son corps Dans toutes les cultures il semble que l'humanité sous des formes diverses ait tenté d'imaginer l'être humain comme composé de deux parties une partie périssable et une partie qui continue d'agir bien au-delà de la mort même si elle n'est pas immortelle Ces deux parties ne se réduisent pas nécessairement un corps visible et un animal double invisible mais qui meurt quand l'autre meurt Chez les Maenche de Nouvelle Guinée l'individu a deux mesures même si n'en a qu'un seul corps De nombreuses sociétés pensent qu'il faut plus de deux êtres humains pour faire un être humain Il faut que l'esprit d'un être ou l'action d'un dieu vienne sinon animer ce corps du moins le rendre complet le compléter Chaque personne n'est donc pas tant inscrite en soi formant comme une sorte d'intimité impersonnelle un ensemble d'idées d'images de valeurs par lesquelles l'ordre ou les désordres qui s'impriment dans son corps régnent dans sa société Seize anthropologues et historiens ont exploré ces réalités culturelles dispersées dans l'espace et le temps

The First Voyage Round the World by Magellan Antonio Pigafetta, Though Magellan's enterprise was the greatest ever undertaken by any navigator yet he has been deprived of his due fame by the jealousy which has always existed between the two nations inhabiting the Peninsula the Spaniards would not brook being commanded by a Portuguese and the Portuguese have not yet forgiven Magellan for having abandoned them to serve Castile But Magellan really had no choice for if the western passage which he expected to discover was to be sought for it could only be under the auspices of Spain within whose demarcation those waters lay It would seem that D. Manuel had only himself to blame for the loss of Magellan's services and as M. Amoretti well observes D. Manuel ought to have been well aware of the value of those services since Charles V knew it and showed his appreciation of them It is difficult to believe that the injury of which Magellan complained and which led him to seek other service was merely as Osorio says the refusal of promotion in palace rank and which he had well deserved especially since the motive ascribed by Osorio to the king's refusal namely the necessity of avoiding a bad precedent was not alone a sufficient affront to account for Magellan's sacrificing all his hopes and property in his own country had he not also felt that the king was condemning him to inaction obscurity and uselessness Barros indeed says that The favours of princes given for services are a retributive justice which must be observed equally with all with regard to the quality of each man and that if a man's portion be denied him though he endures it ill yet he will have patience but if he see the advancement of those who have profited more by artifice and friends than by their own merits he loses all patience indignation hatred and despair arise and he will commit faults injurious to himself and others And what outraged Magellan more than the refusal of the half ducat a month was that some men who were with him at Azamor said that his lameness was feigned to support his petition The king moreover refused to receive Magellan and showed his ill will against him It is therefore highly probable that before Magellan took the step of leaving Portugal D. Manuel

prompted by his niggardly disposition had refused to entertain Magellan's desire for employment at sea or his projects of discovery from which no immediate profit was to be expected. This is apparent from the statement of Barros Decad iii lib v cap viii that letters of Magellan to Francisco Serrano were found after the death of the latter in Maluco in which Magellan said that he should soon see him and if it were not by way of Portugal it would be by way of Castile and that Serrano should therefore wait for him there. Further on Barros says that recourse to Castile appears from these letters to have been in Magellan's mind some time before the occurrence of the king's dismissal of his business and that this was shown by his always associating with pilots and occupying himself with sea charts.

Kronegger,Anna-Teresa Tymieniecka,2012-12-06 In her Introduction Tymieniecka states the core theme of the present book sharply Is culture an excess of nature's prodigious expansiveness an excess which might turn out to be dangerous for nature itself if it goes too far or is culture a natural congenial prolongation of nature life If the latter then culture is assimilated into nature and thus would lose its claim to autonomy its criteria would be superseded by those of nature alone Of course nature and culture may both still be seen as being absorbed by the inner powers of specifically human inwardness on which view human being caught in its own transcendence becomes separated radically in kind from the rest of existence and may not touch even the shadow of reality except through its own prism Excess therefore or prolongation And on what terms The relationship between culture and nature in its technical phase demands a new elucidation Here this is pursued by excavating the root significance of the multiple rationalities of life In contrast to Husserl who differentiated living types according to their degree of participation in the world the phenomenology of life disentangles living types from within the onto-poietic web of life itself The human creative act reveals itself as the Great Divide of the Logos of Life a divide that does not separate but harmonizes thus dispelling both naturalistic and spiritualistic reductionism **Changing Societies** Vincent Mariet,Muthia Chandra,Letyzia Taufani,Martine Raibaud,David Waterman,Micéala Symington,2020-07-07 Putting movement at the center of our political and practical perspectives is to consider several issues related to the movement itself including questions about the concept of pure culture The migrant's he who moves is seen as an intruder and a threat to cultural norms but other frightening social mutations such as environmental problems or the growing place of artificial intelligence in societies are just some examples of evolving cultural and social identity observable in each temporality each geographical area and even in each discipline and make it possible to study the different aspects of the dynamic movement that is at the origin of social changes This volume explores the ways in which populations confronted with such social changes are affected and which consequently can foster new ways of individual or collective decision making **The Complete Works of Gustave Flaubert: Novels, Short Stories, Plays, Memoirs and Letters** Gustave
