Linear Partial Differential Equations for Scientists and Engineers Tyn Myint-U, Lokenath Debnath, 2007-04-05 This significantly expanded fourth edition is designed as an introduction to the theory and applications of linear PDEs. The authors provide fundamental concepts, underlying principles, a wide range of applications, and various methods of solutions to PDEs. In addition to essential standard material on the subject, the book contains new material that is not usually covered in similar texts and reference books. It also contains a large number of worked examples and exercises dealing with problems in fluid mechanics, gas dynamics, optics, plasma physics, elasticity, biology, and chemistry. Solutions are provided. **Book Catalog of the Library and Information Services Division: Subject index** Environmental Science Information Center. Library and Information Services Division, 1977. Walas, 1991. Modelling with Differential Equations in Chemical Engineering covers the modelling of rate processes of engineering in terms of differential equations. While it includes the purely mathematical aspects of the solution of differential equations, the main emphasis is on the derivation and solution of major equations of engineering and applied science. Methods of solving differential equations by analytical and numerical means are presented in detail with many solved examples and problems for solution by the reader. Emphasis is placed on numerical and computer methods of solution. A key chapter in the book is devoted to the principles of mathematical modelling. These principles are applied to the equations in important engineering areas. The major disciplines covered are thermodynamics, diffusion and mass transfer, heat transfer, fluid dynamics, chemical reactions, and automatic control. These topics are of particular value to chemical engineers but also are of interest to mechanical, civil, and environmental engineers as well as applied scientists. The material is also suitable for undergraduate and beginning graduate students as well as for review by practising engineers. *Subject Guide to Books in Print*, 1983. **Scientific and Technical Books and Serials in Print**, 1984. **International Books in Print, 1995** Barbara Hopkinson, [Anonymus AC01401231], 1995. **Choice**, 1998. **Books in Print**, 1991.
