Historical Outlook, 1924 **Empirical Finance** Sardar M. N. Islam, Sethapong Watanapalachaikul, 2012-12-06 This book makes two key contributions to empirical finance First it provides a comprehensive analysis of the Thai stock market Second it presents an excellent exposition of how modern econometric techniques can be utilised to understand a market The increasing globalisation of the world's financial markets has made our understanding of the risk return relationship in a broader range of markets critical This is particularly so in emerging markets where market depth and liquidity are major issues One such emerging market is Thailand The Thai capital market is of particular interest given that it was the market in which the Asian financial crises commenced As such an understanding of the Thai capital market via study of the pre and post crisis periods enables one to shed light on one of the major financial markets events of recent times This book provides a quantitative analysis of the Thai capital market using some very useful and recent econometric techniques The book provides an overview of the Thai stock market in chapter 2 Descriptive statistics and time series models moving average exponential smoothing ARIMA are presented in chapter 3 followed by market efficiency tests based on autocorrelations in chapter 4 A richer set of models is then considered in chapters 5 through 8 Chapter 5 finds a cointegrating relationship between macroeconomic factors and stock returns

Insolvency Timing and Managerial Decision-Making Frederik Drescher, 2013-09-25 Frederik Drescher addresses the timing of non mandatory insolvency filings based on threatening illiquidity 18 InsO with the aim of a company's restructuring as an agency problem between owners and management The hypothesis of a tendency towards delayed insolvency filings which was developed using a decision model is experimentally confirmed Moreover the author analyzes different incentive instruments potentially leading to earlier insolvency filings

Economic Entomology, 1881 **The Routledge Handbook of Responsible Investment** Tessa Hebb, James Hawley, Andreas Hoepner, Agnes Neher, David Wood, 2015-08-11

The UN supported Principles for Responsible Investment initiative has led to around a third of the world's financial assets being managed with a commitment to invest in a way that considers environmental social or governance ESG criteria The responsible investment trend has increased dramatically since the global financial crisis yet understanding of this field remains at an early stage This handbook provides an atlas of current practice in the field of responsible investment With a large global team of expert contributors the book explores the impact of responsible investment on key financial actors ranging from mainstream asset managers to religious organizations Offering students and researchers a comprehensive introduction to current scholarship and international structures in the expanding discipline of responsible investment this handbook is vital reading across the fields of finance economics and accounting *The Cumulative Book Index* ,1922
