Hunger Hotspots Food and Agriculture Organization of the United Nations,WFP, In the current edition of a regular joint bi yearly report the Food and Agriculture Organization of the United Nations FAO and the World Food Programme WFP warn that acute food insecurity is likely to worsen across 13 countries and territories identified as hotspots during the outlook period from June to October 2025 The Sudan Palestine South Sudan Haiti and Mali remain hotspots at the highest concern level while Yemen the Democratic Republic of the Congo and Myanmar are classified as hotspots of very high concern Other hotspots are Afghanistan Burkina Faso Chad Somalia and the Syrian Arab Republic Since the October 2024 edition Afghanistan and the Democratic Republic of the Congo have been elevated to hotspot status Conversely regional clusters in East Africa Ethiopia and Kenya and Southern Africa Lesotho Malawi Mozambique Namibia Zambia and Zimbabwe as well as Niger are no longer classified as hotspots due to improvements in climatic conditions Nigeria and Lebanon are also no longer classified as hotspots due to some improvement in the economic situation and a reduction in the intensity of military operations respectively Although these countries are no longer considered hotspots for the outlook period future economic and conflict related shocks or climatic shifts could lead to their reclassification For the outlook period funding for food and nutrition assistance falls critically short Funding for humanitarian assistance must not be reduced Instead urgent assistance should be

scaled up to protect livelihoods and improve food access across all hunger hotspots This report outlines country specific recommendations for urgent emergency responses as well as anticipatory actions to meet existing humanitarian needs and implement short term protective interventions before new crises emerge The report focuses on the most severe and deteriorating acute hunger situations but it does not represent all countries territories experiencing high levels of acute food insecurity

The State of Food Security and Nutrition in the World 2024 Food and Agriculture Organization of the United Nations, International Fund for Agricultural Development, United Nations Children's Fund, World Food Programme, World Health Organization, 2024-07-23 Six years from 2030 hunger and food insecurity trends are not yet moving in the right direction to end hunger and food insecurity SDG Target 2.1 by 2030 The indicators of progress towards global nutrition targets similarly show that the world is not on track to eliminate all forms of malnutrition SDG Target 2.2 Billions of people still lack access to nutritious safe and sufficient food Nevertheless progress in many countries provides hope of the possibility of getting back on track towards hunger and malnutrition eradication Implementing the policies investments and legislation needed to revert the current trends of hunger food insecurity and malnutrition requires proper financing for food security and nutrition Despite a broad agreement on the urgent need to increase financing for food security and nutrition the same cannot be said for a common understanding regarding how this financing should be defined and tracked The report provides a long awaited definition of financing for food security and nutrition and guidance for its implementation There are recommendations regarding the efficient use of innovative financing tools and reforms to the food security and nutrition financing architecture Establishing a common definition of financing for food security and nutrition and methods for its tracking measurement and implementation is an important first step towards sustainably increasing the financing flows needed to end hunger food insecurity and all forms of malnutrition and to ensure access to healthy diets for all today and tomorrow

Hunger Hotspots WFP; FAO, 2024-10-31 In the current edition of a regular joint bi yearly report the Food and Agriculture Organization of the United Nations FAO and the World Food Programme WFP warn that acute food insecurity is projected to worsen in 16 hunger hotspots including a total of 14 countries and two regional clusters which comprise 8 countries during the outlook period from November 2024 to May 2025 The Sudan Palestine South Sudan Haiti and Mali remain hotspots at the highest concern level while Chad Lebanon Myanmar Mozambique Nigeria the Syrian Arab Republic and Yemen are classified as hotspots of very high concern Since the May 2024 edition Kenya Lesotho Namibia and the Niger have been added to the hunger hotspots list while Burkina Faso Ethiopia Malawi Somalia Zambia and Zimbabwe remain designated as hunger hotspots Immediate and scaled up assistance is crucial in all 16 hunger hotspots to protect livelihoods and improve access to food This report outlines country specific recommendations for urgent emergency responses as well as anticipatory actions to meet existing humanitarian needs and implement short term protective interventions before new crises emerge The report focuses on the most severe and deteriorating acute hunger situations but it does not represent all

countries territories experiencing high levels of acute food insecurity **Accountability for Mass Starvation** Bridget Conley,Alex de Waal,Catriona Murdoch,Wayne Jordash QC,2022-09-01 Famine is an age old scourge that almost disappeared in our lifetime Between 2000 and 2011 there were no famines and deaths in humanitarian emergencies were much reduced The humanitarian agenda was ascendant Then in 2017 the United Nations identified four situations that threatened famine or breached that threshold in north eastern Nigeria Somalia South Sudan and Yemen Today this list is longer Each of these famines is the result of military actions and exclusionary authoritarian politics conducted without regard to the wellbeing or even the survival of people Violations of international law including blockading ports attacks on health facilities violence against humanitarian workers and obstruction of relief aid are carried out with renewed impunity Yet there is an array of legal offenses ranging from war crimes and crimes against humanity to genocide available to a prosecutor to hold individuals to account for the deliberate starvation of civilians However there has been a dearth of investigations and accountability for those violating international law The reasons for this neglect and the gaps between the black letter law and practice are explored in this timely volume It provides a comprehensive overview of the key themes and cases required to catalyze a new approach to understanding the law as it relates to starvation It also illustrates the complications of historical and ongoing situations where starvation is used as a weapon of war and provides expert analysis on defining starvation early warning systems gender and mass starvation the use of sanctions journalistic reporting and memorialization of famine

Contemporary Famine Analysis Olivier Rubin,2015-12-11 This Brief provides some answers as to why famines continue to torment humankind here in the 21st century despite all our progress in food production logistics information dissemination and relief work Contemporary famines are inherently political and so the interesting question is not how famines can be prevented but why they are allowed to develop in the first place only by understanding the latter is there hope to eradicate major famines The Brief assesses the various analytical approaches to the understanding of famine from the classical approaches inspired by Thomas Malthus to the newer economic approaches based on Amartya Sen While all approaches contribute with important insights on famine dynamics they also struggle to capture the political dimension of contemporary famines The Brief develops a political approach capable of addressing this important but messy political dimension of contemporary famines The approach builds on principles of humanitarian accountability the moral responsibility to alleviate suffering from famine as well as political accountability the interests and power relations involved in famine outcomes

Humanitarianism Tim Allen, Anna Macdonald, Henry Radice, 2018-06-27 The field of humanitarianism is characterised by profound uncertainty by a constant need to respond to the unpredictable and by concepts and practices that often defy simple or straightforward explanation Humanitarians often find themselves not just engaged in the pursuit of effective action but also in a quest for meaning That is the starting point for this book Humanitarian action has in recent years confronted geopolitical challenges that have upended much of its conventional modus operandi and presented threats to its foundational assumptions and legal frameworks The critical interrogation of the purpose practice and future of humanitarian action has yielded a rich new field of enquiry humanitarian studies and many thoughtful books articles and reports So the question arose as to the most useful way to provide a critical overview that might serve to bring some definitional clarity as well as analytical rigor to the waves of critique and shifting sands of humanitarian action Humanitarianism A Dictionary of Concepts provides an authoritative analysis that attempts to rethink rather than merely problematize or define the issues at stake in contemporary humanitarian debates It is an important moment to do so Just about every tenet of humanitarianism is currently open to question as never before Understanding the Humanitarian World Daniel Maxwell, Kirsten Gelsdorf, 2019-04-17 Conflict and disaster have been part of human history for as long as it has been recorded Over time more mechanisms for responding to crises have developed and become more systematized Today a large and complex global humanitarian response system made up of a multitude of local national and international actors carries out a wide variety of responses Understanding this intricate system and the forces that shape it are the core focus of this book Daniel G Maxwell and Kirsten Gelsdorf highlight the origins growth and specific challenges to humanitarian action and examine why the contemporary system functions as it does They outline the main actors explore how they are organised and look at the ways they plan and carry out their operations Interrogating major contemporary debates and controversies in the humanitarian system and the reasons why actions undertaken in its name remain the subject of so much controversy they provide an important overview of the contemporary humanitarian system and the ways it may develop in the future This book offers a nuanced understanding of the way humanitarian action operates in the 21st century It will be essential reading for anyone with an interest in international human rights law disaster management and international relations For more information

please see the authors website <https://www.understandingthehumanitarianworld.com> [Africa regional overview of food security and nutrition 2020](#) Food and Agriculture Organization of the United Nations, United Nations Economic Commission for Africa, African Union Commission, 2021-06-29 Africa is not on track to meeting the Sustainable Development Goal SDG 2 targets to end hunger and ensure access by all people to safe nutritious and sufficient food all year round and to end all forms of malnutrition The number of hungry people on the continent has risen by 47.9 million since 2014 and now stands at 250.3 million or nearly one fifth of the population The 2017, 2018 and 2019 editions of this report explain that this gradual deterioration of food security was due to conflict, weather extremes and economic slowdowns and downturns often overlapping A continued worsening of food security is expected also for 2020 as a result of the COVID-19 pandemic In addition to hunger across all countries in Africa millions of people suffer from widespread micronutrient deficiencies and overweight and obesity are emerging as significant health concerns in many countries This report shows that the food system in Africa does not provide food at a cost that makes nutritious food affordable to a majority of the population and this is reflected in the high disease burden associated with maternal and child malnutrition, high body mass, micronutrient deficiencies and dietary risk factors The report also shows that current food consumption patterns impose high health and environmental costs which are not reflected in food prices The findings presented in this report highlight the importance of prioritizing the transformation of food systems to ensure access to affordable and healthy diets for all produced in a sustainable manner

Global food policy report 2023: Rethinking food crisis responses International Food Policy Research Institute (IFPRI), 2023-04-13 This decade has been marked by multiple often overlapping crises The COVID-19 pandemic, natural disasters and the ongoing war in Ukraine have all threatened the fabric of our global food systems But opportunities can be found amid crises and the world's food systems have demonstrated surprising resilience With new evidence on what works now is the time to rethink how we address food crises Better prediction, preparation and resilience building can make future crises less common and less devastating and improved responses can contribute to greater food security, better nutrition and sustainable livelihoods

Bangladesh – Shocks, agricultural livelihoods and food security Food and Agriculture Organization of the United Nations, 2022-01-13 This report shares an analysis of the effects of natural and man-made shocks in the agri-food system of Bangladesh It analyses the results of a field assessment conducted in April and May 2021 The Food and Agriculture Organization of the United Nations (FAO) is implementing a project to contribute to data collection and analysis linked to shocks affecting agricultural livelihoods and food security in order to inform evidence-based programming in selected countries The objective is to assess the effects of these shocks on the agri-food system which includes crops, livestock and fishing, food supply, livelihoods and food security of rural populations Information is collected from primary sources of the production process: producer households, traders or marketers, inputs suppliers, extension officers and other key informants

[Defining Disaster](#) Aronsson-Storrier, Marie, Dahlberg, Rasmus, 2022-01-18 This timely book
