quite new Just as an aside remember how every startup in 1983 used a Commodore 64 as its main computer Even with that amazing machine no one really predicted anything like what the internet would become Hey everyone I m doing a think piece that looks at the future of VR I m really interested to hear from people on this one What would you like technology to do for you in the metaverse What new activities and experiences do you most want developing The main aim of this piece is to get a better understanding of what we actually want the future to be The metaverse could be anything you imagine it to be It s the virtual world of your imagination By thinking about what you want it to be you will shape it with your actions The metaverse can t become real until someone builds it with code Until then the metaverse is whatever we imagine it to be while we are building it together

**Mobile Networking with WAP** SCN Education B.V.,2013-11-11 Inspiration for the wireless revolution The big Geneva Telecom 99 exhibition will probably go down in history as the moment when Wireless Application Protocol WAP made its debut in the world A slew of vendors launched their first WAP phones and carriers announced their first WAP services And this time it s Europe that s the frontrunner For once I m not proud to be an American said Larry Ellison the CEO of softwaremaker Oracle in a speech delivered at Telecom 99 Europe is at least 18 months ahead of the United States in deploying WAP The Telecom 99 show could mark the beginning of a bright very bright future for WAP Analysts predict that a significant part of Internet access will be via wireless devices within a few years It s important not to get carried away When the computer industry gets hold of a new concept like WAP it becomes the Next Big Thing Vendors pre announce products and the mass media prints hype When the revolution fails to materialize during the following months the hype will die soon But this time it s different The business case is overwhelming the numbers are staggering and it s the cash loaded telecom industry that is delivering the key products
