

What Are Your Thoughts?

Students may have concerns about how students perceived the learning activity and how much time might have been spent on it. As a teacher, you can use this activity right in the classroom to address your students' views. This activity does not require any special materials. The example is intended to help you understand the process better but does not show that all groups have a good time with the activity. It is a good idea to have a discussion about the activity and how it was received. It is a good idea to have a discussion about the activity and how it was received.

English as a Lingua Franca Maicol Formentelli, 2017-06-23 English is undoubtedly the lingua franca of global communication today and plays a major role in the internationalisation of universities where it is increasingly being used as the medium of instruction The use of English as a Lingua Franca ELF in higher education has spread at different speeds throughout Europe over recent decades with Nordic and central western countries leading the way and the regions of southern Europe lagging behind In Italy English taught programmes are a rather new and emerging phenomenon which needs to be empirically investigated to uncover the complex mechanisms of classroom interaction in this foreign language The present volume focuses on one aspect of ELF academic exchanges that is deemed crucial in the transmission of knowledge in the educational setting namely the management of interpersonal relations and the expression of interpersonal stance in the classroom To this end a model has been developed along the four dimensions of formality power social distance and respect and has been applied to the analysis of a corpus of ELF lectures recorded in an Italian university The examination of naturally occurring ELF lectures reveals a complex combination of linguistic strategies that lecturers exploit at the macro level of discourse interpersonal episodes and at the micro level of lexis and morpho syntax direct questions comprehension checks imperatives personal pronouns and terms of address to express interpersonal meanings and build rapport with their students in response to specific expressive and communicative requirements brought about by ELF academic interaction **Resources in Education**, 1999 *Telecourse Study Guide for Microeconomics* Paul

Economics in Two Lessons John Quiggin,2021-04-13 Since 1946 Henry Hazlitt's bestselling *Economics in One Lesson* has popularized the belief that economics can be boiled down to one simple lesson market prices represent the true cost of everything But one lesson economics tells only half the story It can explain why markets often work so well but it can't explain why they often fail so badly or what we should do when they stumble Quiggin teaches both lessons offering an introduction to the key ideas behind the successes and failures of free markets He explains why market prices often fail to reflect the full cost of our choices to society as a whole Two lesson economics means giving up the dogmatism of laissez faire

as well as the reflexive assumption that any economic problem can be solved by government action since the right answer often involves a mixture of market forces and government policy But the payoff is huge understanding how markets actually work and what to do when they don't This book unlocks the essential issues at the heart of any economic question From publisher description
