Forthcoming Books Rose Arny,2000 *Mineral Economics and Policy* John E. Tilton,Juan Ignacio Guzmán,2016-03-17

This textbook provides an introduction to the field of mineral economics and its use in understanding the behaviour of mineral commodity markets and in assessing both public and corporate policies in this important economic sector The focus is on metal and non metallic commodities rather than oil coal and other energy commodities The work draws on John Tilton s teaching experience over the last 30 years at the Colorado School of Mines and the Catholic University of Chile as well as short courses for RioTinto and other mining companies This is combined with the professional consulting and academic research of Juan Ignacio Guzmán over the past decade in order to demonstrate the industry application of the economic principles described in the earlier chapters The book should be an ideal text for graduate and undergraduate students in the fields of mining engineering and natural resource economics and policy It should also be of interest to professionals and investors in mining and commodity markets and those undertaking continuing education in the mineral sector
