

Pump Up the Volume!

Volume

Volume is how much space an object takes up. The beaker on the left measures the volume of water in milliliters (mL). The beaker on the right measures the volume of an object with an irregular shape plus the volume of the water. To find the volume of just the orange, you must use subtraction:

$$\left\{ \begin{array}{l} \text{volume of water and orange} \\ - \text{volume of water} \\ \hline \text{volume of orange} \end{array} \right\}$$
