Let's first overview formatting guidelines—that's easy—and then move onto the juicier topic of citation.

Every MLA paper contains a header, a heading, a paper title, and the text itself. The header includes the writer's last name and the page number. When you put that information in the header, it automatically populates above every other page. To make Word automatically paginate your paper, click into the Header and then, from the menu bar, select Insert→Page Number→Current Position. Also notice that the first page of the
