Works cited entries are created by consulting MLA's list of **nine core components** - information common to most works. These components are combined in a specific order with specific punctuation.

1 Author.

Begin with the author's last name, followed by a comma and the rest of the name. See examples for works with multiple authors.
End this entry with a period.

2 Title of Source.

Titles of books and websites should be in italics while periodicals, television episodes, and songs should be in quotation marks.
End this entry with a period.

3 Title of Container,

Title of journal (if using an article), book (if using a book chapter), or show title (if using an episode).
End this entry with a comma.

4 Other contributors,

These could include translators, creators of shows, annotation/foreword/introduction authors, and people other than the author(s).
End this entry with a comma.

5 Version,

If the source is listed as an edition or version of a work, include it in the citation.
End this entry with a comma.

6 Number,

If the source is part of a numbered sequence (multi-volume book or journal with both volume and issue numbers), list those numbers.
End this entry with a comma.

7 Publisher,

The publisher produces or distributes the source to the public.
End this entry with a comma.

8 Publication Date,

The same source may be published on more than one date (online version vs. original). Use the one most relevant to your use.
End this entry with a comma.

9 Location.

Be as specific as possible in identifying a work's location.
