pervasive devices In Grid environments organizations can pool desktops and servers dynamically creating a virtual environment with huge processing power and new management challenges As the number type and criticality of devices connected to the Internet grows new innovative solutions are required to address this unprecedented scale and management complexity The growing penetration of technologies such as WLANs introduces new management challenges particularly for performance and security Management systems must also support the management of business processes and their supporting technology infrastructure as integrated entities They will need to significantly reduce the amount of adventitious bootless data thrown at consoles delivering instead a cogent view of the system state while leaving the handling of lower level events to self managed multifarious systems and devices There is a new emphasis on autonomic computing building systems that can perform routine tasks without administrator intervention and take prescient actions to rapidly recover from potential software or hardware failures   GroupWise 2012 Administrator's Guide Willem Bagchus,2013 Novell GroupWise 2012 Administrator s Guide is the authoritative guide for successfully administering and maintaining the newest release of Novell s communication and collaboration solution Author Willem Bagchus a Novell Master CNE and GroupWise administrator for over 10 years will provide you with insider tips on administration solutions proven information on how to work with GroupWise 2012 and advanced techniques for troubleshooting this latest GroupWise release which is not available in the standard GroupWise 2012 documentation Among other things this guide will cover GroupWise Architecture Using GroupWise System Operations Installing and Upgrading GroupWise Troubleshooting and Preventing Common Errors Moving Resources Distribution Lists Real World Tips from the Field System design and best practices Novell Data Synchronizer Mobility Creating a Backup Solution for GroupWise Helper Applications Latest Technologies Antispam and Security The all new WebAccess NOTE It will NOT cover Document Management as this has not changed from prior versions of GroupWise This guide is filled with screen shots and tips from the field Some topics that are seldom fully covered but commonly needed are covered here Whether you re an experienced GroupWise veteran or an administrator new to GroupWise this guide is for you It s intended to be a handy desk reference handbook Master the management and administration of GroupWise 2012 with the Novell GroupWise 2012 Administrator s Guide   CompTIA Network+ Certification Study Guide: Exam N10-004 Robert Shimonski,Naomi Alpern,Michael Cross,Dustin L.
