Identity and Symbolic Interaction Richard T. Serpe, Robin Stryker, Brian Powell, 2020-04-22 This book examines identity theory's centrality within social psychology and its foundations within structural symbolic interaction highlighting its links not only to other prominent sociological subfields but also to other theoretical perspectives within and beyond sociology. The book provides a synthetic overview outlining the intellectual lineage of identity theory within structural symbolic interactionism and how the Indiana School of identity theory and research associated especially with Sheldon Stryker relates to other symbolic interactionist traditions within sociology. It also analyses the latest developments in response to the push to integrate identity theory which initially focused on role identities with the study of personal group and social identities. Further, it discusses the relationship between identity theory and affect control theory providing a sense of the many substantive topics within sociology beyond social psychology for which the study of identity has important, sometimes underappreciated implications. The book concludes with a chapter summarizing the interrelated lessons learned while also reflecting on remaining key questions and challenges for the future development of identity theory.

OECD Reviews of Evaluation and Assessment in Education: North Macedonia OECD, 2019-06-04 The Republic of North Macedonia has made remarkable progress in expanding access to education and strengthening institutional capacity. Yet the majority of young Macedonians leave school without mastering the basic competencies for life and work, and students' background continues to influence performance. This review developed in cooperation with UNICEF provides North Macedonia with recommendations to help strengthen its evaluation and assessment system by moving towards a system where assessment provides students with helpful feedback to improve learning.

Learning to Love Assessment Sherah Betts Carr, Anaya L. Bryson, 2017-07-07 Learning to Love Assessment: Unraveling Complexities and Providing Solutions provides educators and stakeholders with two very critical components of the current assessment dialogue. One is to understand the historical and legislative components and perceptions that have created the current climate of school accountability measures. The second is to deconstruct these complexities and offer concrete solutions for making classroom assessment an enjoyable, productive and student-owned endeavor. The bulk of this book focuses on solutions. It offers concrete techniques for educators at all levels to cultivate and implement effective classroom assessment strategies. Over 50 unique strategies for formative student peer and self-assessment data dialogues, technological tools and PBL3 problem project and performance based assessments are detailed. A special feature of the book includes access to a

companion web site that contains links and handouts that coordinate with the various classroom assessment strategies In addition each chapter contains reflective pre and post reading questions so the book can be effectively used to supplement professional learning or educational courses *Education in Cambodia* Vincent McNamara,Martin Hayden,2022-05-14 This book is the most comprehensive account yet published about the education system in Cambodia It covers all system levels and draws upon the knowledge and insights of a wide range of leading Cambodian and foreign scholars The book focuses on how the system has developed and is making progress Significant achievements over the past two decades are evident but many problems remain including the poor quality of teaching research and institutional management Under funding is an ongoing obstacle but so too is a bureaucratic culture of resistance to change a history of weak governance and an anti reform sentiment deriving from a teacher centred and exam driven curriculum Achieving international standards must now be the system s highest priority To this end the system must rid itself of conservatism complacency and manipulation by parochial vested interests **Psychological Studies in the Teaching, Learning and Assessment of Mathematics** Yiming
